"children of violence" which consists the present book is a highly recommended series as a whole, but the whole is to be differentiated as the fifth book belongs to a different genre if to any existing one. the former books, this one included, on the other hand, make an important contribution to female

bildungsroman, as Lessing tells us with what i heard to be a tone of apology, in the end of the fifth book. "a ripple in the storm", specifically, suggest some more categories. it faces us with a small comunist group in "Zambezia" through world war 2 which implies all the domain of questions from justice to power in its external and internal spheres, to the state of an individual inside a storm. the story is rich, clever, subtle. it leads us to the continuance of changing and growing of Martha (the author seems to hold a certain popular enough judgement of comunism as something to grow of personally and historically, though not without retaining something of it). it leads us there as if by ourselves. it's not that you want to be or feel yourself to be Martha, actually Martha is half hidden - to herself too - in the turbulence of activity, this is part of the story. it is that you can imagine your shade appearing there in the little rooms. another point,one gets a sad description of the status of women in an example of an ideologically egalitarian organization. this fact is made clear thoroghly by description. one might believe the author doesn't even know this fact (but of course, one shouldn't).

KurzbeschreibungThe third book in the Nobel Prize for Literature winners Children of Violence series tracing the life of Martha Quest from her childhood in colonial Africa to old age in post-nuclear Britain.The personal life of a comrade would be arranged so that it interferes as little as possible with work," he said. Martha had not imagined that the "personal talk" with Anton would arise like an item on an agenda; she now felt frivolous because she had been looking forward to something different The Children of Violence series established Doris Lessing as a major radical writer. In this third volume, Martha, now free of her stultifying marriage to Douglas, is able to pursue the independent life she has wanted for so long. Her deepening involvement with South African revolutionary politics draws her into a world of fierce commitments and passionate idealism. A time of great change, Martha's young womanhood brings not only immense happiness when she embarks on an affair with a fellow party member, but also great sorrow for the pain of abandoning Caroline, her baby daughter, left at home with Douglas, never diminishes Pressestimmen"Absorbing reading...Lessing conveys [with great clarity] the emotions, aspirations and constant self-questing of Martha Quest, her most powerful character."-- Sunday Times (London)"I read the Children of Violence novels and began to understand how a person could write about the problems of the world in a compelling and beautiful way, and it seemed to me that was the most important thing I could ever do."-- Barbara Kingsolver"There can't, I suppose, be anyone left who reads modern fiction at all and isn't aware of the importance of Doris Lessing's work...Lessing knows just what she is doing and a real, densely imagined, completely credible world emerges."-- John Wain, "Observer""Doris Lessing, of all the postwar English novelists, is the foremost creative descendant of that great tradition' which includes George Eliot and D. H. Lawrence."-- "New York Times Book ""She is a mature ad valuable artist, adventurous in the mysteries of daily life, thoughtful, passionate, true."-- Stanley KauffmannKurzbeschreibungThe third book in the Nobel Prize for Literature winners Children of Violence series tracing the life of Martha Quest from her childhood in colonial Africa to old age in post-nuclear Britain.The personal life of a comrade would be arranged so that it interferes as little as possible with work," he said.
