Von Ann Granger : A Touch of Mortality: (Mitchell Markby 9) (A Mitchell Markby Cotswold Whodunnit) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Touch of Mortality: (Mitchell Markby 9) (A Mitchell Markby Cotswold Whodunnit):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The best in a great seriesVon Ein KundeLiam and Sally Caswell leave London for the quiet rural community ofOxfordshire so that Liam, an animal research scientist, can write a book onhis findings. However, instead of finding the countryside quiet and serene, the Caswells are immediately drawn into a squabble with their elderly neighbor Bodicote over the senior citizen's wandering goats. Liam also manages to alienate just everyone else in the neighborhood with his boorish behavior. Everything abruptly changes for the worse when Sally nearly dies from a letter bomb. Assigned to investigate the case is Chief Inspector Alan Markby, who thinks that blaming animal rights groups for a terrorist act may be premature. As he digs deeper, with the help of his sometimes girl friend, Meredith Mitchell, Alan realizes that Liam has many enemies in London and here in Oxfordshire, including Bodicote. Danger mounts and Alan knows that he must solve the case soon before murder occurs. A TOUCH OF MORTALITY is a great mystery based on the concept of a classic English cozy in modern times. The story line is superb as it is loaded with numerous false starts and reasonably distributed clues. Alan and Meredith are great lead protagonists, making Ann Granger's novel one of the best mystery stories of the year. This reviewer strongly recommends the previous Inspector Markby novels as well.Harriet Klausner1 von 2 Kunden fanden die folgende Rezension hilfreich. ExcellentVon PamAnn Granger has done it again. Mitchell and Markby are quite a pair. I recommend this book to anyone who likes a quiet read by the fire (or during the present heatwave the airconditioner). Granger conjures up good images of the characters and the English countryside. I enjoy the little tidbits of life in the pubs, the cottages, the towns and the interplay amongst the characters. My only regret is that since they start in England it takes a long time to get the next volume in the United States.

KurzbeschreibungWhen Sally Caswell persuaded her scientist husband Liam to move from London to the quiet of rural Oxfordshire it was in the hope of a more peaceful existence. But so far the move has led to nothing but discord. Liam's sabbatical book project is not going well so, frustrated and isolated, he quarrels incessantly both with Sally and with their next-door neighbour, the crotchety pensioner Bodicote whose unruly goats are a constant source of contention. But then a mysterious package arrives that gives the couple real cause for anxiety. It appears that Liam is being targeted by animal rights activists, though Superintendent Markby, in charge of the investigation, is not entirely convinced. Liam has many enemies, Bodicote amongs them, and it seems to Markby that Liam's cantankerous old neighbour is hiding something. The more Markby investigates, the more his unease grows - as does that of Meredith Mitchell, Markby's girlfriend and an old friend of Sally Caswell, for Meredith suspects Sally is far from well. Then a body is found ...KurzbeschreibungWhen Sally Caswell persuaded her scientist husband Liam to move from London to the quiet of rural Oxfordshire it was in the hope of a more peaceful existence.
