**Von Deb Stover : A Willing Spirit (A Paranormal Romance) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Willing Spirit (A Paranormal Romance) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Sheer Genius!Von Ein KundeIt takes a very sharp author to write this type of book. The hero and heroine are thrown back in time after a night of dazzling sex, and the hero is possessed by his ancestor's ghost. The scenes between Paul (the hero)

and Sam (the ghost) are hilarious, and the romance just sizzles all the way through. I'll be looking for more of Ms. Stover's books.0 von 0 Kunden fanden die folgende Rezension hilfreich. Brilliant!Von Ein KundeI searched months for this book after hearing so much about it, and it was worth the effort. It takes a brilliant writer to interweave such complex issues and characters. I'm now searching for all this author's books and have ordered her newest. Wonderful, sexy read0 von 0 Kunden fanden die folgende Rezension hilfreich. Just plain dumbVon Ein KundeI found this book in a yard sale box and always loved time travel so I bought it. What a waste of twenty-five cents! It is the stupidest book I have ever read. Totally unbelievable. I want my quarter back.

KurzbeschreibungWinnie Sinclair can't explain how she ended up in an Oklahoma thunderstorm making wild love to Paul Weathers, her ex-husband's divorce attorney, a.k.a "The Barracuda Lawyer".And she certainly can't explain how that same storm swept her back to 1896 Indian Territory or why the "barracuda lawyer" now believes he's a U.S. Marshal. The man still looks like Paul, but gone are the three-piece suits and the expensive haircut, replaced by a pair of Remingtons and a Stetson.Two men, one body, one woman...and no one understands the meaning of the word "compromise".AWARDS:4 Stars, Top Pick! ~Romantic Times Book 4 Stars! ~ Affaire de Coeur5 Gold Stars! ~Heartland CritiquesFive Bells! ~Bell, Book and Candle BookstoreREVIEWS:"Clever... original... thoughtful, quick-witted..." ~Publishers Weekly"Sassy, snappy, sexy... the genre's newest star." ~Jill Smith, Romantic Times Book "Wildly funny, romantic and totally ingenious!" ~The Literary Times"Totally original... incomparable. When the handsome attorney arrives unexpectedly at the houseboat in the middle of a freak storm, the sparks fly. The next morning, however, both are mysteriously pitched overboard and when they resurface they find themselves in Oklahoma Indian territory?100 years earlier. Stover is clever and delivers an original if somewhat contorted plot designed to fascinate her fans, and, for the most part, she succeeds. Although the time-travel gambit shows a lack of imagination, Stover makes up for it with thoughtful, quick-witted dialogue between the strong-willed Paul and an equally bull-headed rival for Winnie's affection?his great-great-grandfather, Sam.
