Von Bob Mayer : Area 51 (Area 51 Series Book 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Area 51 (Area 51 Series Book 1):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A creative and inventive storyVon ashamanULI had a great time reading it. It brings together many myths/rumors together. Some are interesting, some are a stretch, but still great fun. Some the UFO lore X-files type stuff, such as the cattle mutilations performed by the Nightscape team were somewhat unclear. I've always liked stories about UFOs,

MIB, crop circles, Great Pyramids, Atlantis etc. Now throw in Bigfoot, Yeti, Loch Ness Monster and you have a party! (just kidding) Some military details were off, but hey this isn't Larry Bond or Tom Clancy stuff. Bottom Line - fun book. 2 von 2 Kunden fanden die folgende Rezension hilfreich. This deserves twenty stars! Von Mr N Forbesswarren But the scale would't let me! This is one of the best, most awesome and astounding books I've read in a long while. The story revolves around the mysterious goings on in the secret base of the title as the military experiments with alien technology. But what is the secret with the mother ship, the Pyramids of Giza, Atlantis and the statues on Easter Island, and how is it all linked? Some amazing theories are featured which are extremely plausible. I mean, having been to Egypt myself twice, where did an advanced civilisation like those portrayed in hieroglyphs come from? This part of the book was well thought out. As a special forces operative tries to uncover the secrets with an assortment of characters drawn into the conspiracy, he makes some startling discoveries. And technothriller fans will love the airborne scenes featuring the supersecret AURORA hypersonic plane. My only criticism was the ending being rather hurried after a superb build-up, but I eagerly look forward to the follow-ups. Forget the X-Files, Area 51 rules! 2 von 2 Kunden fanden die folgende Rezension hilfreich. Excellent Read Von Peter Werner I have read Bob Meyer's "Atlantis" novels and I thoroughly enjoyed them. But this novel is even more thrilling. Rarely have I read such a gripping tale, the plot is breathtaking in its turns and twists. I disagree with some of the critics: the characters are believable. They may be stereotypes in a way, a journalist is a journalist, a soldier is a soldier etc., but I think they are of flesh and blood and very conceivable. Meyer likes to pick up ancient and modern myths and give them a new fictitious meaning and it is always exciting when esoteric theories are turned into SF-thrillers, or inexplicable phenomena are explained by using the unlimited fantasy that fiction allows. For all those who like this kind of writing, this book is an excellent read.

Kurzbeschreibung Book 1 in the Area 51 series Since before the dawning of modern man, an alien mothership and nine abandoned flying saucers have been hidden away in Area 51, a top-secret military base in the Nevada desert. There, scientists have studied the crafts, hoping to unlock the secrets of the alien technology and, perhaps, the origins of life on Earth. But now a deranged general wants to activate the motherships interstellar drive and the consequences could prove catastrophic for humankind. Dr. Hans Von Seeckt an elderly scientist, ex-Nazi, and original member of the Area 51 research team joins up with the president's science adviser, Dr. Lisa Duncan, and Special Forces officer Mike Turcotte to put a stop to the planned test flight and tell the public the truth about Area 51. Meanwhile, a brilliant archaeologist, Professor Nabinger, discovers a message on runes found in ancient Egypt that could change everything we think we know about human evolution and the role that alien visitation may have played in

Kurzbeschreibung Book 1 in the Area 51 series Since before the dawning of modern man, an alien mothership and nine abandoned flying saucers have been hidden away in Area 51, a top-secret military base in the Nevada desert. There, scientists have studied the crafts, hoping to unlock the secrets of the alien technology and, perhaps, the origins of life on Earth. But now a deranged general wants to activate the motherships interstellar drive and the consequences could prove catastrophic for humankind. Dr. Hans Von Seeckt an elderly scientist, ex-Nazi, and original member of the Area 51 research team joins up with the president's science adviser, Dr. Lisa Duncan, and Special Forces officer Mike Turcotte to put a stop to the planned test flight and tell the public the truth about Area 51. Meanwhile, a brilliant archaeologist, Professor Nabinger, discovers a message on runes found in ancient Egypt that could change everything we think we know about human evolution and the role that alien visitation may have played in it. Synopsis In 1940s, the U.S. government had established Area 51 to study nine unidentified craft discovered in the Antarctic, but Dr. Hans Von Seeckt, the only member of the original secret research committee, begins to fear that the technology of the mothership poses a threat to our planet. Original.
