**Von Leia Stone, Jaymin Eve : Ash (Hive Trilogy Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ash (Hive Trilogy Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not what you expect!Von EmmaI didn't read much about this story before I just started into it as I had not read a vampire story in a very long time but was very surprised!I liked the concept and the way the world is built gives the dystopian

vibes! Charlie is a kickass character and its nice to see a more level headed character especially compared to her BFF Tessa who at times I found annoying and very cliché. When her life starts to change it gets really interesting the idea of the culling seemed really exciting too! I found the writing style okay and the plot was there but some things were over written and some were so under written it really annoyed me which is why I did not give it more. Do love me some sexy six though! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Interesting start, gets cliché follow up Von lizzy What a pity, the novel started really interesting. New twist on vampire stories but towards the end the writing got more and more predictable and cliché. Cringeworthy romance i could hardly finish. Only flat development of characters. the writing style is artificially floppy 5 von 6 Kunden fanden die folgende Rezension hilfreich. Locker und unterhaltsam Von Merle Unterhaltsam geschriebene junge Vampir-Fantasy-Geschichte um die junge Charlie Bennett. Seit vor einigen Jahrhunderten Fledermuse Dorfbewohner mit einem Virus infiziert haben, existieren Vampire. Diese leben, nach blutigen Kriegen mit den Menschen, zusammen mit ihren hybriden Vampir-Menschen-Nachkommen, den immer männlichen Ash, in grossen Wohngebüden, streng abgeschirmt. Zu Ashs werden die Nachkommen erst nach der Pubertät, meist unerwartet. Charlie hasst Ashs, seit sie vor einem Jahr befallen wurde. Umso erschreckender ist es für sie, als sie selber zu einem wird. Ab da ist nichts mehr so, wie es war. Zum Glück findet sie einflussreiche Freunde, die sie beschützen. Die Story ist gut aufgebaut, die Charaktere, -zwar richtige Cliché-Vampire-, sind spannend, die Dialoge jung, frech und frisch. Die Lovestory entwickelt sich langsam und stetig, das Setting ist interessant und macht Lust auf die Fortsetzung. Das Buch entspricht dem Schema, ist leicht und oberflächlich, aber unterhaltsam.

Kurzbeschreibung The USA TODAY bestselling series! Are you an Ash? \*Increased stamina \*Lack of appetite \*Anger outbursts \*Insatiable thirst \*Beauty Strength \*Male Call the hotline if these symptoms come on suddenly! Turns out Charlie Bennet was all of those things except the last. Don't let the name fool you, Charlie was all woman and she wanted nothing to do with the ash until the day she found out she was one. It all started when infected bats bit a small group of humans and created what are now called vampires. Then, the male vampires knocked up some female humans and the result was a gorgeous race of all male ash. Superhuman freaks that had looks to kill. Charlie is the first female ash, aka unicorn of the Hive the gated compound in Portland that the humans have designated to isolate vampires and ash from society. Problem? The Hive is full and only a select few will be allowed to live there. To live at all, really. If Charlie wants to earn the right to become a citizen of the Hive, she will have to survive the culling a series of fights to the death. And guess what? Just because she's a girl doesn't mean she'll get special treatment. Good thing there's Ryder, the mysterious lead ash enforcer, who seems to always have her back. But when secrets bubble to the surface, it will take more than one guy to save her. \*\*Recommended reading age is 17+ due to language
