**Von Sophia James : Ashblane's Lady** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ashblane's Lady:

KurzbeschreibungShe was his means of revenge...Lady Madeleine Randwick was his hostage, and a way to get under her brother's skin. As a player in the murky game of borderland politics, Alexander Ulliyot, Laird of Ashblane, should have had no compunction about using her for his own ends. He should ruin her as surely as he wanted to ruin her brother. And instead...instead he found he was complimenting her. But her writing life only started when she was given a pile of Mills Boons to read after she had had her wisdom teeth extracted! Filled with strong painkillers she imagined that she could pen one, too. Many drafts later Sophia thinks she has the perfect job writing for Harlequin Historical as well as taking art tours to Europe with her husband, who is a painter.
