Von Isaac Hooke : ATLAS (ATLAS Series Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised ATLAS (ATLAS Series Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. What a great storyVon -KundeWhat a great tale Mr. Hooke provides with this book. The book is the opener for at least few more. I really appreciated the different ideas the autor brought into the story. It's something new, it's refreshing.Can't wait for the sequel.0 von 0 Kunden fanden die folgende Rezension hilfreich. SuperVon Norman HirschmanI really the

book (Kindle) and could not put it down from beginning to end. Am looking forward to the sequel. 2 von 4 Kunden fanden die folgende Rezension hilfreich. Alles schon mal gelesen und das besser. Von Allesleser das Buch erinnert sehr stark an den Film Act of Valor über die tollen Typen der SEALs, nur in Buchstaben und im Weltraum. Wie bei einem Liebesfilm (boy meets girl, boy and girl fall in love, boy and girl marry) ist die Handlung voraussehbar (Boy aus armen Verhältnissen wird rekrutiert, durchläuft Ausbildung, wird zum Mann und Soldaten, trifft Aliens und tritt diesen in den Hintern). Manche Ideen sind gut aber irgendwie kommt einem fast bei jeder der Gedanke "das hast du doch schon irgendwann irgendwo schon mal gelesen. Die Ausbildung zu einem "toughen" Typen geht einem irgendwann auf den Senkel, weil immer wieder noch einer drauf gelegt und es eine ewige Abfolge von körperlichen und mentalen Prüfungen ist bei denen nur "die besten der Besten der Besten (HARRUFF)" bestehen, die sich dann noch in der Einheit beweisen müssen. Auch das Gesetze der "Waffenbrüder, die die einzige Familie" sind und sich freinander opfern wird bezogen. Es gibt genügend gute militärische SciFi, das hier muss man nicht unbedingt lesen.

Kurzbeschreibung The future of warfare has a name: ATLAS. Three times the height of an ordinary man and ten times wider, the ATLAS mech represents the peak of combat engineering. Rade Galaal will become a one-man army if he can survive the training. The MOTHS: elite warriors, products of the most arduous military training known to man. Only the MOTHS can master the devastating, atomic-powered battle suits dubbed ATLAS, massive weapons-laden mechs that constitute an unstoppable ground force when piloted by the consummate soldiers of the MOTH teams. Can Rade make the grade, ascending from raw recruit to ATLAS war machine? Careful what you wish for: when Special Warfare Command sets a mission beyond the limits of explored space, all of the conditioning, sacrifice, and hard-won skill and the awesome might of the ATLAS technology may not be enough to confront the unforeseen horrors found there. Rade's dream of military glory might just turn out to be the ultimate nightmare. Revised edition: This edition of ATLAS includes editorial revisions.
