Von Jeff VanderMeer : Authority (The Southern Reach Trilogy, Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Authority (The Southern Reach Trilogy, Book 2) (English Edition):

Kurzbeschreibung In the second volume of the Southern Reach Trilogy, questions are answered, stakes are raised, and mysteries are deepened. Following the disastrous twelfth expedition chronicled in *Annihilation*, the second book of the Southern Reach trilogy introduces John Rodriguez, the new head of the government agency responsible for the safeguarding of Area X. His first day is spent grappling with the fall-out from the last expedition. Area X itself remains a mystery. But, as instructed by a higher authority known only as The Voice, the self-styled Control must battle to put his house in order. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the mysteries of Area X begin to reveal themselves and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. Undermined and under pressure to make sense of everything, Rodriguez retreats into his past in a labyrinthine search for answers. Yet the more he uncovers, the more he risks, for the secrets of the Southern Reach are more sinister than anyone could have known.

Pressestimmen Praise for ANNIHILATION and the SOUTHERN REACH TRILOGY: 'I'm loving the Southern Reach Trilogy ... Creepy and fascinating' Stephen King 'Hauntingly weird and brilliantly new ... These are contemporary masterpieces and career-defining novels' Adam Robert, Books of the Year, Guardian 'This trilogy is a modern mycological masterpiece ... Remarkable ... Tense, eerie and unsettling ... VanderMeer writes much better prose than Poe ever did ... This is genuinely potent and dream-haunting writing. VanderMeer has arrived.' Guardian 'A teeming science fiction that draws on Conrad and Lovecraft alike ... "Annihilation" shows signs of being the novel that will allow VanderMeer to break through to a new and larger audience' Sunday Telegraph 'A lasting monument to the uncanny ... You find yourself afraid to turn the page' Guardian 'VanderMeer's novel is a psycho-geographical tour de force, channelling Ballard and Lovecraft to instil the reader with a deep, delicious unease' Financial Times 'What a haunting book this is, lodging deep in the memory in similar fashion to otherworldly classics such as David Lindsay's "A Voyage To Arcturus" ... "Annihilation" is so disquietingly strange as to defy summarisation. Read it' Daily Mail 'Astonishing, frightening, spectacular ... The imaginative daring and reach with which VanderMeer has invented and executed a concept such as Area X is breathtaking ... Powerful and echoing ... I hope the trilogy will come to be seen not only as the instant sci-fi classic it is, but also as Literature' New Statesman 'Immersive, insightful and often deeply bloody creepy, this is a startlingly good novel ... A major work' ***** SFX Magazine 'A tense and chilling psychological thriller about an unravelling expedition and the strangeness within us. A little Kubrick, a lot of Lovecraft, the novel builds with an unbearable tension and claustrophobic dread that lingers long afterwards. I loved it' Lauren Beukes 'Original and beautiful, maddening and magnificent' Warren Ellis
