**Von Harper Sloan : Axel (Corps Security Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Axel (Corps Security Book 1) (English Edition):

It was one of those books that I should have hated, that the main character should have annoyed the heck out of me, but I didn't. It is just the difference that is the author. She made me care about the characters even though I would normally find them annoying. It was great.Isabelle and Axel were in love. From the moment they met it was just right between them. Yes, they were young, but they planned a future together. Only Axel

went off and joined the military, which Isabelle supported 100%, but he never returned for her. She was devastated, thinking he was gone for good and she would never be able to see him again. Axel missed Isabelle so much, but when he returned for her she wasn't there. Some other things had happened and she had to move, but no one could tell him where to. He spent years searching for her only to find her married. He thought she had moved on, that she was happy, so he tried to let it be. Tried to let her live her life. He still loves her even if he is very angry with her for leaving him without a word. It was really just a big case of wires getting crossed and people keeping information from them. It was one of those if they would just talk they would figure everything out and they could try again. Only Isabelle refuses to talk to him. She is one of those people that just hides from what is happening instead of facing it. After she thought Axel was gone for good Isabelle tried to move on. She thought she had found someone who she could be happy with. Not like Axel, but since he is no more someone she could spend her life with. Only her happily ever after turned into a nightmare when her soon to be ex started hitting her. She put up with it for a long time until things finally went too far and he left her passed out on the floor. She finally was able to escape with her bestie, but it has been hard putting the pieces of her life back together again. Thankfully she has great friends who are there for her no matter what. When her soon to be ex starts getting a bit creepy, when they realize he knows where she is, Isabelle's friends make her agree to try and do something about it. To get more security and whatever needs to happen to keep her safe. Her one friend, Greg, especially is determined to keep her safe. Greg who knows/works with Axel, but doesn't know he does since he doesn't go by that name anymore. Greg who won't let Izzy just crawl inside herself again. Greg who will do anything to help her. Izzy is why I was so surprised that I enjoyed this book as much as I did. I normally hate girls who are so stupid and just run. She refused to even talk to Axel about anything but her ex situation for so long! It was very frustrating. She wouldn't listen to anyone and just was aggravating. She would just be a little brat all the time. She would throw temper tantrums and it was just a lot of things I usually hate, but I didn't. Yes I would yell at her at times, but I still liked reading her story. I was still rooting for her even though she was the one standing in the way of her own happiness for so long. Still a great read and I can't wait to read everyone else's story! This review was originally posted to Jen in Bookland0 von 0 Kunden fanden die folgende Rezension hilfreich. It is one of the most conflicting books I have ever read Von Lena Ribka It was the most conflicting book I have ever read. I hate it, I rolled my eyes, I felt confused, I wanted to give up and then I enjoyed it, I cried...yeah..I couldn't believe myself as it happened, but I did it!..I started reading it with very high expectations that went down almost immediately. I was very near to give it up by 50% but the enthusiasm and overwhelming excitement of the most US/UK-readers and also simply a curiosity prevented me to do it. I have to thank all of my friends who tried to convince me to keep on reading. The second part of the book was much more better than the first one. I was going to rate it with 2, 5 stars, but the ending and, yes, Axel of course, made it to 3 at the end. Would I recommend it? Yes. It could be a kind of book that makes your heart race. It didn't work this way for me, but we love and enjoy different books. Maybe it is exactly your kind of book. You can find it out only if you try it. Just don't start it with too much expectations. Will I read something of this author in the future? Yes. Harper Sloan has a great potential and the fact that her writing was growing better to the end of the book confirmed it. 0 von 0 Kunden fanden die folgende Rezension hilfreich. ber den Autor und weitere Mitwirkende Harper lives in small town Georgia just a short drive from her hometown of Peachtree City. She (and her 3 daughters) enjoy ruling the house they dubbed 'Estrogen Ocean', much to her husband's chagrin. Harper has a borderline unhealthy obsession with books; you can almost ALWAYS find her with her eReader attached. She enjoys bad reality TV and cheesy romantic flicks. Her favorite kind of hero--the super alpha kind! Harper started using writing as a way to unwind when the house went to sleep at night; and with a house full of crazy it was the perfect way to just relax. It didn't take long before a head full of very demanding alphas would stop at nothing to have their story told.
