Makes you think Von Susan Williams-Goebber This book makes you think about your relationship with your Partner. Have you really told them that you love them? Have you told them in a way that they know you really mean it. Or do you say it in passing and leave them with this Unsicherheit? It makes you want to pull your Partner close and tell them that

you married them because you love them and not for the money he has in the bank or the lovely house he has. Or the jokes you make are not the way you really feel but that you're just hiding your true feelings. It's a good book, a must read. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Very appropriate title Von Gatalina Nick and Sam love each other but their communication is bad. After a divorce, they are forced to work together as a family to handle their teenage daughter. Kurzbeschreibung She's trying to forget the pleasure in her ex's arms He's doing his damndest to remind her Fledgling entrepreneur Samantha River is in charge of her own life for the first time and determined to keep it that way. She's attempting to banish her call-all-the-shots ex-husband, who could charm the knickers off a nun, from her dreams. Unfortunately, it's kind of tough forgetting the Zorro look-alike who's willing to do anything for her, except give her the only two things she wants--another baby and his love. Corporate vice president Nicols River's refusal to sire a second child ultimately destroyed his marriage. His ex-wife has no clue how terrified he is of losing her to another high-risk pregnancy. Now, Nick will stop at nothing to get his family back--even if it means blackmailing his way into his ex-wife's home--and with any luck--her bed and her heart.
