Von Robin Wells : Baby, Oh Baby! (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Baby, Oh Baby! (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. MORE than worth your time and money.Von Detra FitchAttorney Jake Chastain and his wife had gone to a fertility center a few years back in hopes of having a baby. But his wife and parents died in a car wreck. Two years had passed when Jake found out that the doctor had used Jake's sperm to impregnate another woman!Annie Hollister had not found Mr. Right yet, but wanted a baby. She went to the same doctor that Jake had. Consequently, Madeline was fourteen months old when Jake stormed into their lives demanding custody!This book has another couple with problems as well! Jake's business partner, Tom, was also his father-in-law. Tom and his wife had been having trouble dealing with the death of their daughter. They loved Jake as if he were their own son. The last thing they needed was a woman trying to steal

Tom and break up the marriage. And Tom was having trouble accepting a new woman in Jake's life, as well as, having a baby that should have been his daughter's! Tom certainly could not understand why his own wife welcomed Jake's new found daughter with open arms and that fact hurt his marriage even more!***** This was like two stories in one. The main topic is Jake, Annie, and Madeline, but the co-characters were just as interesting! Yeah, Readers, this book is one in a million! Don't miss out! *****

KurzbeschreibungCynical, jaded, practical-minded attorney Jake Chastaine is still grieving his late wife two years after her death when he discovers that due to a mistake at a fertility center where she received treatment, a woman he's never met has had his baby. Jake is determined to play a role in his child's life. He's chagrined to discover, however, that the mother of his child is as appealing as she is impractical. A gorgeous redhead, Annie is a free spirit who raises llamas, reads tea leaves and believes her dead grandfather talks to her through highway billboards. Worst of all, she makes his body temperature soar in a most illogical manner. When his law partner and former father-in-law threatens to ruin Annie in a misguided attempt to help him acquire custody of the child, Jake decides that the best way to handle the situation is to enter into a short-term marriage of convenience. They both get far more than they bargained for, and learn a life-changing lesson about the power of love.
