Von Natalie Goldberg : Banana Rose: A Novel (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Banana Rose: A Novel (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. One of my all time favouritesVon Ein KundeBanana Rose is one of those books that make me glad to know that writers like Natalie Goldberg are in the world. I first took this book out of the library, and immediately fell in love with it. I took it out of the library a few more times, and then finally got my own copy. Anytime I want to remember Taos, or the

dreams of what could have been in a believable character's life - or in my own, for that matter - I read Banana Rose. The book just makes me feel better; no small feat in this world. Goldberg also does a good job of making all of the other characters - besides Banana Rose, Gauguin and Anna - very much alive. Blue is one of my favourites. I can "see" all these people. The book rambles a bit here and there, but it's worth hanging in through those parts, for the magic of the whole. I can't recommend this book highly enough. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Read Long Quiet Highway Von midorri@yahoo.com I love every other thing Natalie Goldberg has written, and while I can't say I loved this book, I find it compelling enough to read again and again. It's honest, sometimes too honest. It's the same essential story as Long Quiet Highway, except it's about the hippie chick Banana Rose/Nell, not the ever fascinating Natalie and her exploration into Buddhism. The characters are authentic and very real, but the basic lack of suspense and purpose in their lives and the plot make it sometimes difficult to stick with them, or sometimes even like them. But then, that's reality. Long Quiet Highway was the best book I read this year, but this is a nice, if not extraordinary, companion. This was one of her first books. I'd like to see what she could accomplish now. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Not much here! Von Dallas Reader Unless you particularly enjoy reading about life in a commune, drugs, free love and what everyone is eating, you probably won't like this book. The characters were so strange that I couldn't really like them or care what happened to them. I thought about not finishing the book several times, but I decided to stick it out. There was no great revelation here for me. I can see, however, that people living this lifestyle or who are artists may enjoy the book more. There is a lot of banter about whether Banana Rose is motivated to paint or not..whether Gauguin can write songs or not..whether Anna can write stories or not...and so on.

Kurzbeschreibung A young woman journeys from New Mexico to the Midwest, trying to make sense of her life as an artist and how it meshes with her family, faith, and inner self
