Can Jack Keep Carrie Safe?Von Ingrid Stephanie JordanTitle: Bearly In TimeDrummond Island Bears Book 1Author: Erin KellyReviewed by: Stephanie JordanThis was a cute little short story, a little on the tame side but still cute. Ms. Kelly

wrote about how the nice people on the island mostly of male bear all stick together, taking care of each other. Beings they were all bears they were even more protective of the families on the island. Carrie Sylvan has a problem and the only way to take of it was to move a far away as she could and pray Simon would finally leave her alone. The Captain of the ferry that was going to the island is Jack Chambers who lived his whole life on Drummond Island. But than everything changed once he smelled Carrie, Yep life for Jack was going to change. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung First book in a new series. This is a complete story with a HEA and no cliffhangers. Carrie Sylvan's on the run. Her ex-fiance is stalking her, determined to get her back. She stands up to him, refuses to back down, and drives to a remote island determined to start a new life. The last thing she expects is to fall in love with boat captain Jack, but there's more to the handsome man than meets the eye. Jack Chambers is happy running Drummond's Dream, a local ferry to the mainland, drinking gourmet coffee, and spending weekends letting his bear run free in the forest that covers most of Drummond Island. Most of his bear shifter friends have found their mates, but he refuses to believe in the werebear myth of fated mates. At least, he didn't think fate had someone in store for him...until he met a curvy, gorgeous woman on his boat that he can't stop thinking about. Carrie's too frightened to trust anyone, but Jack's determined to win her heart and her hand in marriage. But there are treacherous waters ahead when Carrie's stalker finds her once again. Will Jack's bear be strong enough to keep Carrie safe and make her his mate?
