had finished reading it, I just could not put it aside. I really liked it. I am looking forward to reading more from Jacquie.

Penny Dreadfulber den Autor und weitere MitwirkendeJacquie resides in sunny Brisbane with her husband and two sons. Numbers and practicality are a way of life for Jacquie as she works as an accountant by day. So it's no wonder, for sanity's sake, she balances this banality with words, characters and imagination in all other possible moments. Jacquie is an author of a number of novels and writes contemporary women's fiction that is emotionally driven and possesses unique themes beyond the constraints of the physical universe. She strives to offer romance, but with complexity; spirituality, without the religion. Her novels express a purpose and offer subtle messages about life, the spirit and, of course, love.
