next story. Maybe Axel's? Or Bjorn's? Thane? Xerxes? :-)And what about William and the Lords?More!!!0 von 0 Kunden fanden die folgende Rezension hilfreich. Sizzling and intriguing as everVon emiliaI always buy Gena Showalter's books with an expectation of an intriguing story to be unfolded, containing unexpected twists and sizzling adult fun to be encountered. A human woman like this heroine here might not possess the superpowers of the very beleaguered antagonist, but at the suspense nail curling end she proves to be the stronger and his salvation. This book holds very much its own with the other of this series. It met my expectation to the fullest and provided me with hours of interesting and satisfactory reading.
