Von L.A. Witt : From Out in the Cold (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised From Out in the Cold (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Review on From Out in the Cold by L.A. Witt (new lightly revised version)Von irisNeil Dalton finds his oldest friend Jeremy Kelley shivering on his door step one December night. Deep guilt, flashbacks, night terrors, PTSD and their messed up family situations rule both their lives. Although they had lost contact for some years, there is this old special bound making Neil and Jeremy cling to each other desparately. Slowly they reveal their emotional scars and realize they need

each other more than ever. But if they couldn't make the more than best friends thing work before, how should it work now with them both being shake to the core? Neil takes Jeremy with him to spend the holidays at their childhood place at Omaha/Nebraska, although he barely holds himself together and tries to put up a happy face in front of his family. Here, of all places, they finally confront their personal demons and get the motivation to move on. This is not a light, happy winter-christmas story but it is well worth reading. Neil and Jeremy are such lovable characters and I found it gripping how they gingerly reach out for each other despite all their heavy baggage. Normally I don't like it when the POV swings back and forth between the MCs, but here it is perfect and enhances the story line further. L.A. Witt has done a great job keeping the story flowing and making Neil and Jeremy's chapters mash together with the right amount of more information, to keep the reader hooked on, reading on without a stop until the sweet HEA ending. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Not an easy read but so worth it Von Sunne Yeah - that one put me through the wringer. Excellent. I suffered with both and I cried some times. And I smiled and hoped and was more than relieved when they finally got together. ***Spoiler*** I was a bit annoyed that they didn't talk to each other at the beginning... wrong, not at the beginning of this story but more in the past. Twice they failed to talk in the past. And now they were afraid to fuck up the friendship they both needed so much. So when they did, it was a great relief. I wanted to punch Jeremy's parents - hard - and I was sick of the way they said that they loved him but only if he stopped being gay. Something like that still makes me sick. So it was kind of soothing that at least Neil's parents came to their senses. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gute Idee, die sich allerdings ewig zieht, ... Von Timberwlf in Der Ansatz ist klasse. Die Idee so noch nicht da gewesen und doch finde ich, dass dieses Buch an manchen Stellen zu wenig ausgearbeitet wurde und an anderer Stelle zu ausführlich. Der Mittelweg fehlt. Mich konnte es nicht vom Hocker hauen. Was für Zwischendurch, wenn sonst kein anständiger Lesestoff zur Hand ist.

Kurzbeschreibung Neil Dalton's foundation is already cracking. Grief, guilt, and PTSD have ruled his life since a terrible crime tore his world apart last year, and he's dreading a holiday visit with the family he simultaneously needs and resents. Then someone from his past shows up and rattles that shaky foundation right out from under him. First a war nearly destroyed Jeremy Kelley, then his family threw him out when he needed them the most. Now he's barely holding on emotionally. He spends his last dollar to get to Chicago and prays his former best friend won't leave him out in the cold. Neil and Jeremy spend the holidays with Neil's family in their hometown of Omaha. They struggle to deal with families, flashbacks and feelings that haven't even begun to fade since their last failed attempt at more than friends. As they try to repair their fractured psyches and rebuild damaged bridges, they rely on each other more than ever, but they can't deny the mutual attraction that existed since before they were both emotionally battered and scarred. If they couldn't make it work back then, how in the world can they pull it off now? This book was previously published and has been lightly revised. Witt is an abnormal M/M romance writer who has finally been released from the purgatorial corn maze of Omaha, Nebraska, and now spends her time on the southwestern coast of Spain. In between wondering how she didn't lose her mind in Omaha, she explores the country with her husband, several clairvoyant hamsters, and an ever-growing herd of rabid plot bunnies. She also has substantially more time on her hands these days, as she has recruited a small army of mercenaries to search South America for her nemesis, romance author Lauren Gallagher, but don't tell Lauren. And definitely don't tell Lori A. Witt or Ann Gallagher. Neither of those twits can keep their mouths shut...
