Nice story about a band on their way to fame with too much sexVon readerThe first chapters retell the story from book one and then the band gets on the road. Jack and Leila share the bedroom while the other guys sleep in the bunks. I felt

really with them, their girlfriends had to stay behind and they had to listen to their lead singer getting some. Every other page had them having mind blowing sex whenever wherever they were alone. I just felt like skipping over the sex to read the story about the successful tour, the alleged fatherhood, the threats I didn't get Jen and her attitude towards Leila nor why her boyfriend another music agent was always with her. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Amazing second book in the series Von Marincheto007OMFG :) I thought that the first book was good. I read this one for less than a day. I went to bed at nearly 5:00 am because I couldn't stop reading. I simply had to finish it. I loved the story, the suspense, the romance... pretty much everything. The way Jack and Leila develop their relationship is so real that I felt like I know them, like they are my friends. There were parts at which I was laughing so hard, I couldn't stop for at least 10 minutes straight (OMG, Trey and the fake website or Evan and his mother). And there were parts that brought tears to my eyes (the hell Jack went through because of that bitch Jessa and after that the whole scene with the "incident"). A.M. Madden is definitely becoming one of my favorite authors. I definitely recommend this book and even if you weren't impressed with the first book in the series I think you would like this one. I am for sure excited and cannot wait to read anything else she writes from now on. I sure hope we get to read the stories of the rest of Devil's Lair and Cliffhangers, especially Trey. I developed quite a soft spot for him ;) 0 von 0 Kunden fanden die folgende Rezension hilfreich. Exciting sequel to Back-up Von Gaps A lot of things are going on in this book. Leila and Jack have to overcome quite a few obstacles here. Their relationship has to survive through pregnancy, ex-girlfriends and even kidnapping. And if you fell in love with these guys, you can even look forward to reading Encore.

**Kurzbeschreibung** Warning: This book is meant for mature readers who are 18+. It contains explicit language, and graphic sexual content. Jack was a rock star on the way to fame. Leila was following her dream and joining his band as a back-up singer. An insane attraction sparked between them that they couldn't deny. Attraction quickly led to so much more. They ignored all the warnings and fell in love. When the couple embark on their tour, they couldn't be more excited to travel the country hand in hand on the way to stardom. The road ahead is filled with miles and miles of possibilities. Along with their band, Devils Lair, they feel nothing could stop them. An angry ex-band-mate, a pregnant ex-girlfriend, and never-ending Internet gossip all attempt to wreak havoc on their developing relationship. New love does not mix well with stress, pressure and guilt. Together they face each and every challenge, stubbornly fighting for what they have. Will their determination be enough? **Kurzbeschreibung** Warning: This book is meant for mature readers who are 18+. It contains explicit language, and graphic sexual content.
