Von Kelley Armstrong : Frostbitten (An Otherworld Novel) before purchasing it in order to gage whether or not it would be worth my time, and all praised Frostbitten (An Otherworld Novel):

KundenrezensionenHilfreichste Kundenrezensionen0 von 2 Kunden fanden die folgende Rezension hilfreich. Great BookVon Simone HaeselerLike all the other books about Elena and Clay this one is great as well, right from the beginning you cant stop reading. Loved the book.4 von 5 Kunden fanden die folgende Rezension hilfreich. Classic ArmstrongVon K. J. LammersAnyone who has read any of the other books of " Women of the Otherworld" will love this book as well. It starts a bit slow, but it all comes together in the end. This book focuses on Clay and Elena. Jeremy has asked Elena if she wants to become Alpha after him. In this book she considers what this will mean for her and her relationship with Clay. Their twins are left at home while they are in Alaska trying to solve some mysterious murders. The pack has become quite small, we meet however two young werewolves who might become part of the pack. Both of whom have their own problems. I've just finished the book and I can't wait for the next one. Just a pity that a next book probably won't be written/published for at least another year0 von 0 Kunden fanden die folgende Rezension hilfreich. amazingVon Draconiayou should defenitely start reading this sseries at the beginning ("bitten" is the first book) not because you wouldn't be able to understand the plot, but because the books are so much fun! This one is no exception. It's lots of fun and you should defintely buy it and read it!

KurzbeschreibungFor Elena Michaels, being the worlds only female werewolf has its advantages, such as having her pick of the Otherworlds most desirable males. And she couldnt have picked a more dangerously sexy and undyingly loyal mate than Clayton Danvers. But now their bond will be put to the ultimate test. A werewolf more wolf than human and more unnatural than supernaturala creature whose origins spring from ancient legends hunting human prey, and Elena and Clayton must track the predator deep into Alaskas frozen wilderness.But the personal stakes are even higher. Either Clayton or Elena has been chosen to become the new Pack leader, and every wolf knows that there can be only one Alpha. The couple have always been equals in everything. Now, when their survival depends more than ever on perfect teamwork, will instinct allow one of them to lead and the other to follow?PressestimmenHighly recommended . . .
