chronological order. An exception is in order for this book. I'm up to M in this series, and I'd say that G IS FOR GUMSHOE is probably my favorite so far. It is an excellent introduction to Kinsey Millhone, and it is far better than A IS FOR ALIBI. So if you haven't read any and are looking for a good place to start, this is it!0 von 0 Kunden fanden die folgende Rezension hilfreich. No-brainer entertainmentVon traceysjp@aol.com"G" is for gullible? Kinsey Millhone is hired to find the elderly mother of her client and bring her back to Santa Theresa, which she manages to do. But not before she is run off the road, shot at, and left to die in an irrigation ditch all at the hands of a hired assassin. Because. . .well, we aren't exactly sure. If that isn't enough, Kinsey uncovers a sinister plot of a room and board owner for the gain of . . .not really sure of that either, sure doesn't look like he got a lot out of it. All in all "Gumshoe" was an entertaining roller coaster ride through the all too dangerous life of our favorite private detective. If you are looking for an escape from the day to day monotony and want some no-brain entertainment, go ahead, you won't be disappointed. If you are looking for an intellectual and suspenseful thriller, I recommend you try Patricia Cornwell's "From Potter's Field".0 von 0 Kunden fanden die folgende Rezension hilfreich. Another great mystery from Grafton.Von Sharon WylieI find myself writing the same things over and over about the books in this series, but Grafton is so consistently top-notch that it's hard to think of new superlatives. Kinsey is a great character--complex, tough, practical, nosy--and Grafton stays true to that character in all her books.Kinsey's not just solving a mystery in this one, she's also trying to outwit the hit man on her tail. To this end, she teams up with another P.I. to act as her bodyguard. This innovative twist adds just the right amount of suspense to this book, and the ending--to both the mystery and the hit man scenario--is definitely a kicker.Whether this is your first Kinsey Millhone book or you're a fan of the entire series (there's a nice emotional payoff for Kinsey fans in this one, as Kinsey finally meets a man worthy of her), this one is a must-read. Enjoy!

KurzbeschreibungG is for Gumshoe is the seventh in the Kinsey Millhone mystery series by Sue Grafton.For the record, the name is Kinsey Millhone. Private investigator. One hundred and eighteen pounds of female in a five-foot six-inch frame. Just turned thirty-three (after what seemed like an interminable twelve months of being thirty-two) . . . Three things happened on May 5, the day everyone sang Happy Birthday to Kinsey Millhone. The repairs were completed on her apartment, and she moved back in. She was hired by Mrs Clyde Gersh to bring her mother back from the Mojave Desert. And lastly, a real surprise. The news that shed made one of the top slots on Tyrone Pattys hit list . . .From Publishers WeeklyCalifornia PI Kinsey Millhone, hired to investigate the disappearance of a client's eccentric, elderly mother, must also evade a vengeful criminal whom she helped put away four years earlier. "Grafton creates . . . a twist in the complex plot to tease Bronte fans, and a new, vulnerable side to the still-sardonic Kinsey," said PW. "The only complaint is that it ends abruptly." Author tour. Copyright 1991 Reed Business Information, Inc.From School Library JournalFeisty private investigator Kinsey Millhone continues to solve mysteries, in this case finding and taking an elderly woman to a nursing home near her daughter. But the lady mysteriously disappears within hours of her arrival. Painfully aware of the fact that a contract has been arranged for her own murder, Kinsey unravels the events of the past clue by clue, narrating the action-filled story in a realistic, easy-to-read, informal style. Less motivated students are sure to appreciate a character with a respectable, exciting job without having had a college education; although Kinsey had police training, her bodyguard freely admits he left high school but later took an equivalency test. This light mystery maintains interest to the end; everything happens quickly. --Claudia Moore, W. T. Woodson High School, Fairfax, VACopyright 1990 Reed Business Information, Inc.
