Von Eileen Goudge : Garden of Lies before purchasing it in order to gage whether or not it would be worth my time, and all praised Garden of Lies:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Reading a Soap OperaVon Nicole I. WaickmanThis book is not a thriller, it is not excellently written, and it is no where near winning a pulitzer prize. Rather it is a book that you cannot put down, one that pulls you into the lives of three women and the consequences of the decisions they make. From the first page you want to know what will happen next and

want nothing but the best for these characters. This book is like a soap opera with its overdone plot and numerous coincidences, but nonetheless I was hooked. What can I say, it's a book for a hopeless romantic and dreamer.0 von 0 Kunden fanden die folgende Rezension hilfreich. A story of true loveVon Julie LovisaAlthough I find it extremely implausible that two women switched at birth would somehow miraculously find and fall in love with the same man a half world apart, that is the wonderful thing about fiction you get lost in...it's like a soap opera, you never admit to watching one, but you know you're addicted! It's the Danielle Steele phenomenon. This story is just perfect; Rose and Rachel are knowingly switched at birth after a tragedy in the hospital where they are born. Rose grows up in a poor, strict, catholic home and is in love with her neighboring boyfriend Brian. Rachel is raised in opulence, becomes a doctor and after finding out she can never have children, volunteers to serve in Vietnam. There she meets Brian and they fall in love. The scene where Rose finds out that Brian and Rachel have gotten married just breaks my heart, and anyone who has ever been dumped out of the blue will have tears in their eyes, I promise. Years later, Brian and Rose come face to face and it is evident that Rose has never gotten over him. I got this book when it was originally published 10 years ago and have read it several times.0 von 0 Kunden fanden die folgende Rezension hilfreich. Good...but flawedVon C JonesInitially this book is very intriguing. It exams the lives of of two women who were switched at birth and grew up under very different circumstances. Rachel is raised by a wealthy family and has all the advantages that go with it. Rose, on the other hand, grows up in poverty and experiences endless tragedy. When they reach adulthood their lives begin to merge. Twists of fate gradually bring them to a confrontation. Despite their opposite backgrounds, these two women are uncannily similiar in personality traits and ambitions. This book does a fine job at examing the nature vs. nature issue. Miss Goudge's writing style flows nicely and she is able to accurately portray her characters emotions and thoughts with depth. The downfall of this book, however, is that it becomes too predictable. Halfway through the book you know what is going to happen chapter by chapter. There is no element of surprise. What could have been made into an exciting conclusion, comes to an abrupt and dull end. An otherwise good novel, but by no means perfection.

KurzbeschreibungA blockbuster New York Times bestseller: A wife takes a shocking step to protect her marriage from the consequences of her own infidelity . . .
