Von Patrick Lee : Ghost Country (Travis Chase Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ghost Country (Travis Chase Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. They will not improve your life but they're great fun to readVon Lou MYou can't help but like these books, I'm about to start

the 3rd and I think last in the series and I've got to say there's never a dull moment. Improbable plots, impossible situations, ridiculous escapes and it all adds up to "Can't put it down" and staying up till 3:00 A.M. on a weekday to finish a few more chapters. They won't make you smarter or improve your love life but you'll have a good time. Just don't tell the fellas at work, they'll think you're a SciFi geek.

Von Nils1. "Ghost Country" baut auf dem brillianten Erstwerk des Autors, "The Breach" auf. Es wre sicher sinnvoll "The Breach" vorher zu lesen.

2. Ghost Country kommt bei Spannung, Logik und Qualitt leider nicht ganz an "The Breach" heran, ist aber dennoch sehr interessant zu lesen.

3. Es geht im Wesentlichen darum, dass die Hauptpersonen die Mglichkeit haben mit einem kleinen Gert eine ffnung in die nahe Zukunft zu schaffen. Dort angekommen sehen sie, dass die Menschheit nicht mehr existiert. Sie kommen einer riesigen Verschwörung auf die Spur. Es stellt sich die Frage, ob das Ende der Menschheit noch verhindert werden kann. Das Ganze ist eine Mischung aus Action-Thriller, Mystery und Science Fiction.

Von John McOwenI didn't enjoy the second book nearly as much as the first and third one. Some of the plot and some new characters are clich and I didn't feel the suspense of the first (and third!) book in this one. You can actually skip it and go straight for the third book without missing pretty much anything - which is the way I would go in hindsight.

Another big reason for me not enjoying the book is the following***minor Spoiler for book-1***there is only a single new entity used in the entire book. The whole premise is based on entities coming out of the breach that are dangerous or what not. Another small one is introduced but basically doesn't play any role at. I was very interested in what the author could come up with - the possibilities are endless, unfortunately my expectations were not fulfilled until the last book in the series.

KurzbeschreibungIn a word: Brilliant.It left me breathless and awed.Pure exhilaration from the first page to the last.

James Rollins, New York Times bestselling author of Altar of EdenWOW! Double Wow!...Ghost Country by Patrick Lee will make Asimov and Heinlein cheer with the angels. The techno-thriller meets Sci-Fi, and the result is mind-blowing.

Stephen Coonts, New York Times bestselling author of DisciplePatrick Lee reinvented and revitalized the contemporary thriller with his extraordinary debut The Breach (Audacious and terrifying Lee Child). Now his conflicted ex-cop/ex-con hero Travis Chase is back in the breathtaking follow-up Ghost Country. Both Michael Crichton and Dean Koontz fans, X-Files aficionados and devotees of FOX TV's Fringe, will be blown away by Lees Ghost Country

a nightmarish tale of a nefarious plot unleashed at the highest levels of government that will bring about the end of everything in a matter of a few short months.

PressestimmenPatrick Lees Ghost Country is in a word: Brilliant. Less a novel, than an adventure, it left me breathless and awed. Its explosive, innovative and ultimately mind-blowing. Pure exhilaration from the first page to the last. (James Rollins, New York Times bestselling author of The Doomsday Key)

Settle back and savor this one. Patrick Lee has an intense brand of storytelling. Hes a most welcome addition to the genre. The real deal. I look forward to reading more from him. (Steve Berry, New York Times bestselling author of The Emperor's Tomb)

WOW! Double Wow! Starkly original, Ghost Country by Patrick Lee will make Asimov and Heinlein cheer with the angels. The techno-thriller meets Sci-Fi, and the result is mind-blowing. Makes Tom Clancy look like the slowest child in the class. (Stephen Coonts, New York Times bestselling author)
