BrilliantVon Ein KundeThis one had me on the edge of my seat throughout. I loved the suspense and tension, the

forces pulling the couple apart, even though you knew they were meant to be together. Excellent plot and characters make this one a real keeper.

Kurzbeschreibung Biochemist Clarissa Vincent's fiancé Julian Simmons was killed in a terrible explosion five years before. Or was he? Taking a new job in Portland, Oregon, Clarissa sees a man at the airport who could be Julian's double. Suddenly Clarissa is propelled into a nightmarish world of espionage and intrigue, with no one to trust except the man pointing gun at her. Julian has never stopped loving Clarissa, even when he is sure she betrayed him. His new life is about nothing but duty, and revenge, until he holds her in his arms once more. Their torrid embraces make Julian wish the whole world would go away and let them be free to love one another for all time. Clarissa knows the cold, ruthless man who looks at her as though he would like to kiss her, or kill her all the time, has been through hell on earth since their torrid love affair 5 years ago, attempt upon his life, and presumed death. She also knows someone in his own agency is betraying him, putting them both at risk. Clarissa must struggle to save all she holds most dear from the ruthless plotters who will stop at nothing to achieve world domination with the biological weapon she has created by accident. But her biggest fight will be to win back Julian's heart....An excerpt: He took her lips in a blistering kiss which swept away her misery. She was angry and upset, but those feelings were as nothing to the wave of passion which flooded through her. She arched up against him violently as the dam burst from the pressure of her pent-up emotions. Julian, love me, please, she gasped, as his mouth moved down to caress the ivory column of her throat, and the gap between her breasts. I do, my love, I do. I always have, he whispered, bringing his face up to look directly at her. Clarissa could see the old light shining in his shimmering gray eyes, and recognized the truth. Whatever had forced them apart for all these years was nothing compared to their love for each other. Julian, love me now, she pleaded. She began to unfasten his black shirt with shaking fingers, longing for the touch of his silky skin. Forgive me, Clarissa, for so many things, he whispered, before kissing her full on the mouth again. He hurriedly began to work at the buttons of her blouse. A sudden loud metallic click and gurgling hiss in the room made her hesitate. I've left the iron plugged in. Naughty girl. I'll just have to punish you when I get back, he teased, giving her a last thrusting kiss. He rose off the bed to fully remove his shirt, then switch off the iron. He stood by the bed looking down at her, his bronzed muscles rippling with every breath he took. Clarissa knew he was five years older than when they had last been together, but was sure he had never looked more handsome. She was just sitting up to reach out for him when she heard a curious popping sound. To her horror, blood began to flow out of a graze in Julian's shoulder, which he clutched with a gasp.
