awesome book intertwining mystery and romance. Von Ein Kunde This book is an awesome read. It starts out with the mystery of a stalker and then moves to the story of a young woman 30 years later. The author then intertwines these two plots and it makes for a great read. The character Olivia, is strong and loveable as is her stepbrother, Seth. You fall in love with these two, laugh and cry with them and discover what love is all about with them. I encourage you to read this book because it is a wonderful masterpiece. Robards should be highly praised for it. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Very good! Kept my interest! Von Ein Kunde The only thing preventing me from giving this book a 5 star rating was: way too many characters to try to keep track of. (Leading lady, her daughter, her dead mother, step aunts and uncles, step cousins, step cousins daughter, step cousins fiance and her daughter, maids....etc) She could have cut back a few of the characters in my opinion. The other thing that really started to annoy me was that she must have mentioned at least 30 different times that Seth was wearing Kaki pants. Too descriptive of clothes all the time. However, the plot was very good and held my interest! 1 von 1 Kunden fanden die folgende Rezension hilfreich. Ghost Moon is excellent Von Nina Crown GHOST MOON is the first Karen Robards novel I've read (I just happen to see it in the library). I think Ghost Moon is a very good book, good story line. I highly recommend it. (Especially if you also like Nora Roberts and Kristin Hannah books.) The only down side is that I got so confused with the characters... there are so many! I really have to think which one is related to who and who's not. And what's up with Seth's Polo shirts and Khaki Pants... it must have been mentioned at least 50 times and it got kinda annoying.

Kurzbeschreibung Nine years after leaving in disgrace, Olivia Morrison is coming home again with her eight-year-old, Sara, to put things right with the Archer clan. But there is no welcome for the prodigal daughter at the lavish Louisiana estate. Her stepcousin, Seth, once her only comfort, is icy, dangerously attractive and engaged. Her formidable stepgrandfather collapses with a heart attack at the sight of her, gasping her dead mother's name: Selena! The bayou echoes with memories of her mother's mysterious death. Suicide by drowning, they said. But Olivia's terrifying nightmares suggest another story. She is determined to learn the truth, and to face a newly ignited passion for Seth, who is too close for comfort, despite his vows. When a new danger threatens her and her daughter, Olivia must find the courage to confront her old demons ... and uncover a shocking secret buried in the long-forgotten past.... From the Paperback edition. de Set in rural Louisiana, Karen Robards's Ghost Moon finds prodigal daughter Olivia Martin returning home to reconcile with her stepfamily. Her sudden arrival after nearly a decade throws the family into a tizzy, and sets off her grandfather's heart attack. With entrances like this, you know the drama won't be skimpy. Trying to reconnect with her family, Olivia searches through her past memories and unearths disturbing recollections of her mother's drowning. With the help of sexy step-cousin Seth, Olivia begins to rebuild her life and find happiness. Unfortunately, a crazed psychopath is haunting the neighborhood, and he's got eyes for Olivia's daughter. Part romance and part suspense-thriller with supernatural elements thrown in, Ghost Moon has something for everyone. The chapters focusing on the killer's history of abducting girls are chilling and ominous, and the slow development of Olivia's relationships is both realistic and satisfying, making for a pleasing if sometimes terrifying read. --Nancy R.E.
