Von Dee DeTarsio : Ginger Krinkles (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ginger Krinkles (English Edition):

Fast paced and amusingVon Hoener, BirgitFast paced, funny, some awww-moments - I really liked reading this one, although the sentences sometimes seemed to tumble over themselves, which made following the main character's ramblings a bit difficult.Still, apart from that, I enjoyed this book very much, it's not very long, so a read you could

finish in one or two evenings.

KurzbeschreibungGinger Krinklesby Dee DeTarsio'Tis the season to read jolly!Award-winning novel--including the award-winning "Ginger Krinkles" Christmas Cookie recipe, perfect for holiday cookie parties and exchanges!Ginger Krinkles is crossing her fingers that this holiday season will be extra special, for once. She lost her job in San Diego and dreads moving back home to Ennui, Ohio, where shes convinced she will end up like her mean ol grandmother (God rest her soul). Ginger has always been a holiday-hater. But she has a secret. Make that two. If you buy the first one, maybe it will be easier to unwrap the second: either Ginger is an elf, or there really is magic to be found in an old cookie recipe.Enjoy!KurzbeschreibungGinger Krinklesby Dee DeTarsio'Tis the season to read jolly!Award-winning novel--including the award-winning "Ginger Krinkles" Christmas Cookie recipe, perfect for holiday cookie parties and exchanges!Ginger Krinkles is crossing her fingers that this holiday season will be extra special, for once.
