Von Ken Mooney : Godhead (The Last Olympiad Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Godhead (The Last Olympiad Book 1) (English Edition):

Kurzbeschreibung Ken Mooney brings the Greek gods to the present day in this exciting New Adult dark fantasy Olympus has fallen; new gods must rise. The Greek gods have been betrayed by one of their own. Zeus is dead, and Olympus is under siege by the demonic forces of Chaos. Their only chance of survival is to abandon the city, buying them time to regroup and rebuild. Thousands of years later, the children of the gods walk among us, guiding and protecting humanity. But there are some who don't know of the powers they have, or the secrets they must keep. The gods are no more, eliminated by their greatest enemy. And now, she wants to return home; no matter who is standing in her way.

ber den Autor und weitere Mitwirkende Ken Mooney was born in Dublin in the middle of the 1980s; he still lives there. He holds a degree in English Studies from TCD, which he totally uses every day during his day-job in TV advertising...totally. He's always been obsessed with stories, reading, writing and playing them; that explains the massive collection of books, comics, video games and discarded Word documents. His writing is a combination of all the things that he's passionate about, all the way through high-and-low-brow. Godhead is his first novel, an idea that's been floating around his head for nearly fifteen years; there might even be a (few) sequel(s) if he ever gets around to writing them...
