Fast, fun, realistic...Von Pelican Freak'Going Home', Book 1 of the 'Where We Left Off' series is a great quick read! It's really fast-paced and the characters are really well developed so we quickly get to know them so that we can find joy in their happiness and stress at their trials.Khloe is real, she's lovable and she's fun. I love how relatable she is. She's been through some stuff - more than most - and she's ready to kind of put it behind her and move on. As we watch her

pick up the pieces and put a life together, Paul steps in... a hottie who's got a special place in her heart. They've both got great family dynamics and I'm absolutely in love with the small-town in which this is set. It seems predictable off the bat but then there are some little twists. The book does end on - not exactly a cliffhanger but it completely left me needing more and I eagerly await the release of Book 2! A really fun way to spend a couple hours. I still miss these characters and cannot wait for more. Nice touch, making this avail in the KOLL - a great way to use my monthly library / Prime loan! Thank you.

Kurzbeschreibung Khloe Winston finally returns to her childhood town to visit her parents for Thanksgiving. It has been years since she has been home. She took the week off from work and made the trip by car from Old Palm Harbor, Florida to Long Island, New York. She would, of course, run into Paul Whittington, her high school prom date and backyard neighbor. Paul had returned home after serving in the Navy and never left home again. He also never got around to finding a wife. Their first meeting told Khloe everything she had hoped for, that she and Paul still had strong feelings for each other that have only been simmering for the last fifteen years. Fifteen years ago, they kept their feelings in control for fear of what their families would think of them being together. That was then. This is now. Passion is quickly ignited between the two. But how will they manage a long distance relationship? Khloe is only back in the old neighborhood for a quick visit. She has a job and an apartment back in Florida and Paul is tied to his job in this little Podunk town. Khloe's solution is a decision she makes swiftly and on her own, she is going to move back home. Her hope is that by eliminating their distance that she and Paul can take their relationship to the next level. There is only one problem, she doesn't know how Paul's high profile job will accept their biracial relationship, especially in this small, off-the-beaten-path, neighborhood. NOTE: The main female character came to the story with baggage that occurred before this story takes place and the angst was used to illustrate the depth of her brokenness. The event from her past, described in dialogue, is graphic and tragic but it speaks to the pain and despair she endured before this story begins.
