Cinderella does the White House in a great modern romanceVon Ein KundeAt only thirty-nine, Stephen Marshall has been President of the United States for about a year. Already his advisors and his beloved Aunt Doris inform him that if he wants to be reelected he, being a bachelor, needs a woman by his side. To insure that no sex scandal impacts him, Stephen lives the life of a cold showering monk.Ginny Baxter is Jane Q. Public citizen, who is on the tour of the White House, when her blood pressure medicine sends her looking for a bathroom. Somehow she clears the entire house

without being stopped, ultimately running into the Secret Service and the President. Quick thinking Stephen selects Ginny as his political rescuer and invites her to attend a reception. She wonders if she is Cinderella or just the butt of a bad practical joke. The mother of a teenager and the country's most eligible bachelor begin to see each other and fall in love with one another. However, he is political suave and she is suburban baseball mom, leaving no doubt that midnight will strike early for this unusual couple. GOLDEN MAN is a contemporary American fairy tale that succeeds due to the immense talent of Evelyn Rogers. The story line, especially the night of the "disaster", seems so real because of the awesome skills of the writer. The lead players are charming, but it is the political hacks, sycophants, and friends of the president that turns Cinderella goes DC into a deserved crown of glory for Ms. Rogers. 1 von 1 Kunden fanden die folgende Rezension hilfreich. This Book Left Me Wanting For MORE! Von Ein Kunde This is the First book I've read by this author and BOY WAS I IMPRESSED! This book spoke to the heart. The character were all too real to me. It just proved to me that emotion are very potent feelings, and you can be lead astray, by them, very easily. We could all take a lesson from this book. On a whole this was a beautifully written book. I only wish I could write 1/4 as well as this author. Ms. Rogers, please continue to write with the intensity and passion and realism you injected into this wonderful book, and I'll do my part by buying and reading them as fast as you can write them!!! 1 von 1 Kunden fanden die folgende Rezension hilfreich. a heart warming contemporary fairy tale Von Ein Kunde If you enjoyed the movie where Michael Douglas played the bachelor president in love with Annette Bening's character (forgot the movies' name), you will love this. But where did they get the totally dreadful cover art? It had nothing to do with the story inside.

Kurzbeschreibung Stephen Marshall was the kind of guy that made a woman think of satin sheets and steamy nights, of wild fantasies involving hot tubs and whipped cream -- and then brass bands, waving flags and Fourth of July parades. All-American terrific, that's what he was; tall and bronzed, with hair the color of the sun, thick-lashed blue eyes, and a killer grin slanted against a square jaw -- a true Golden Man with a body that made other men look like Don Knotts. He was even single. Unfortunately, he was also the President of the United States. So when average Ginny Baxter found herself his date for a diplomatic reception, she didn't know if she was the luckiest woman in the country, or the victim of a practical joke. Either way, she was in for the ride of her life . . . and the man of her dreams.
