book hooked me from the first line. Von Michael The voice of the protagonist, Abel, comes through very clear. He is able to describe his feelings and emotions in a way that I have never read. Abel is one of a kind and has a strong constitution. Hudson writes in great detail and created pictures in my mind that have left me in awe. I never will feel the same about the rainforest or about life in the jungles. The characters are all well developed and not at all boring and the book must be read like sipping a wine. I recommend this book to anyone who has courage because some of the incidents are dramatic. 1 von 1 Kunden fanden die folgende Rezension hilfreich. This book touches my life every day! Von Rima Stratt Meyer My mother having read this book sometime before I was born in the 50's, was so moved that she named me after Rima. When I was 12 I read it for the first time, and after moving many times the book was lost. I have always wanted to re-read it as an adult feeling that there was quite a bit more I would appreciate now. I am delighted to have located this novel, and will be thrilled not to have to explain to my friends once more where my name originated. I will just loan them the book! 0 von 0 Kunden fanden die folgende Rezension hilfreich. A touching love story. Von caz_brister@geocities.com I think the story was beautifully written. It is unique in its perspective. So few romances are written from a man's point of view. I was utterly engrossed in the story and i have read it many times. It didn't get a 10 because of the ending. It was really good, but.. well... I don't want to give it away. Let's just say it must be a guy thing. I do encourage any fans of romance and fantasy to read it. It is absolutely wonderful.

Kurzbeschreibung The curious call of an unseen bird lures a young European explorer deeper and deeper into the jungle, where he encounters the source of the siren song a lovely, half-wild girl with mysterious powers. Thus begins the romance between Abel, a revolutionary hiding among an Indian tribe in the Venezuelan rainforest, and Rima, who speaks the languages of birds and longs to return to the land of her birth to be reunited with others of her kind. Written by a British naturalist with a deep love and knowledge of wilderness areas, the richly colored tale transports readers to the lush atmosphere of the ian outback. Originally published in 1904, this haunting classic offers a narrative of lyric beauty as well as a fascinating link between nineteenth-century Romanticism and modern environmentalism. Synopsis A failed revolutionary attempt drives the hero of Hudson's novel to seek refuge in the primeval forests of south-western Venezuela. There, in the 'green mansion' of the title, Abel encounters the wood-nymph Rima, the last survivor of a mysterious aboriginal race. The love that flowers between them is soon overshadowed by cruelty and sorrow. One of the acknowledged masters of natural history writing, W. H. Hudson forms an important link between nineteenth-century Romanticism and the twentieth-century ecological movement. First published in 1904 and a best-seller after its reissue a dozen years later, Green Mansions offers its readers a poignant meditation on the loss of wilderness, the dream of a return to nature, and the bitter reality of the encounter between savage and civilized man.
