Mind CandyVon CustomerThis book follows after the Tales of the Were - The Others: Slade and I for one waited for more of the Redstones since meeting Matt in Sweeter than Wine. A nice melange of fantasy, romance and fight of good against evil. Quite entertaining and easy to read and understand.0 von 0 Kunden fanden die folgende Rezension

KurzbeschreibungGriffon Redstone is the eldest of five brothers and the leader of one of the most influential shifter Clans in North America. He seeks solace in the mountains, away from the horrific events of the past months, for both himself and his young sister. The deaths of their older sister and mother have hit them both very hard.Lindsey Tate is human, but very aware of the werewolf Pack that lives near her grandfather's old cabin. She's come to right a wrong her grandfather committed against the Pack and salvage what's left of her family's honor - if the wolves will let her. Mostly, they seem intent on running her out of town on a rail.But the golden haired stranger, Grif, comes to her rescue more than once. He stands up for her against the wolf Pack and then helps her fix the old generator at the cabin, making it habitable for her while she completes her task. He's friendly and all too attractive, but she has a job to do, regardless of the cost to herself or her budding relationship with the local handyman.When she performs the ceremony she expects will end in her death, the shifter deity has other ideas and turns the tables on them all. Grif's dual nature is revealed and Lindsey learns there is much more going on than she thought.Thrown together by fate, neither of them can deny the deep and true attraction between them. They come together, but in the end will an old enemy rip them apart?Warning: Cats are frisky and they get up to all sorts of naughtiness, including a frenzy-induced multi-partner situation that might be a little intense for some readers. You have been warned.* Look for the other books in this series, available now in ebook and print.The Tales of the Were includes:Main series: Lords of the Were, InfernoThe Others: Rocky, SladeRedstone Clan: Grif, Red, and three more coming soon!The Brotherhood of Blood series is related, and includes:Vamps: One Only (novella), Rare Vintage (novella), Phantom Desires (novella), Sweeter Than Wine (novel), Forever Valentine (novella).Wolves: Wolf Hills, Wolf QuestKurzbeschreibungGriffon Redstone is the eldest of five brothers and the leader of one of the most influential shifter Clans in North America. She grew up and still lives on Long Island, where she keeps busy with an extensive garden, several aquariums full of very demanding fish, and writing her favorite genres of paranormal, fantasy and sci-fi romance.
