Von Ann Aguirre : Grimspace (Sirantha Jax series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Grimspace (Sirantha Jax series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. We have a winner.Von Cathy HI was not sold immediatly on this book. It was not bad. There was action right from the start and a pissy, bitchy heroine. Kick-ass heroines are important. I'm not into those whiny, insecure damsels in distress. But this snarky heroine gave me a little bit of whiplash, as if she was trying to hard.The whole fragging this, fragging that, fragg the other also really got on my last nerve. You want to swear, then swear and use the word you want to use!There were a lot of fun bits though, the peegasm being one of the best.About 80 pages into the book it started to become interesting, when the crazy-ass plan was revealed and the trouble really started.I have always loved SciFi where planets with different lifeforms feature convincingly. As a teenager I was a massive Alan Dean Foster fan, I had

at least a meter of his paperbacks on my shelf... This goes a little bit in that direction, in a more girly, Urban Fantasy way. Let's call it SciFi Light. The romance was not too in your face and developed slowly, in a believable way. No Instalove, thank goodness. I liked March. He did not bowl me over, but he's a solid character with a good backstory. The characters are generally well developed and have personality. I liked it that they aren't all black and white, but with some grey areas. I even liked mini-characters like Adele. The relationships between them felt natural as well. The finish of the book was fantastic and I really hope that the last character popping up will show his mandibles again in the next book. Which is already ordered and hopefully on the way to me soon. I thought about giving this fragging book four stars, but the annoying bits were smothered by the great second half of the book. Good plot and characters, I felt with them and want more. 9 von 9 Kunden fanden die folgende Rezension hilfreich. Flieg oder stirb! Von Geisha X In einer Zukunft in der Weltraumpiloten gemeinsam mit einem Jumper einen Sprung durch das "Grimspace" unternehmen können um ihre Fluge zu beschleunigen: Sirantha Jax ist in Einzelhaft und wird befragt, da sie unter dem Verdacht steht, an einem Shuttleunglück schuldig zu sein. Doch sie selbst hat keine Erinnerung an das Geschehen. Als ein Fremder in ihrer Kabine auftaucht und ihr die Wahl bietet sich ihm anzuschließen, wenn er sie befreit, greift sie zu. Doch die Flucht vor der Gesellschaft, die ein Monopol auf "Jumper" hat, entwickelt sich zu einem Albtraum und bald erkennen beide ein gigantisches Komplott. Grimspace hat mich von den ersten Seiten an gepackt. Das Buch beginnt bereits temporeich und hat von Anfang an gefangen genommen. Dabei ist Aguirres großer Bonus, dass sie ein geniales Hündchen für Charaktere mitbringt. Ihre Heldin Jax und ihr Partner March wirken glaubhaft und überzeugend und selbst die Nebenfiguren sind so gut gelungen, dass sie mir wie alte Bekannte vorkamen. Dazu hat die Autorin einen sehr geradeaus gerichteten Erzählstil, der perfekt zu der futuristischen Kulisse passt. Einziges - verschmerzbares Wermutstropfen - war für mich das etwas unbefriedigende Ende, das aber auch daran liegen kann, dass es mit der Geschichte von Jax im Fortsetzungsband "Wanderlust" bald weitergehen wird. 3 von 3 Kunden fanden die folgende Rezension hilfreich. Wonderful Science Fiction! Von Susi Sunshine I so love science fiction and this book gets an extra point for being such a great book in this genre. The created world is developed in such great detail and with so much love that it sucked me in from the beginning. The concept of the J-Gene is thoughtful and gives the whole story a ethical and moral aspect. Ann Aguirre's writing flows and she knows how to give each character just the right words to say. Every person in this book is an individual and talks like one too. Jax is a real kick-ass heroine. She always says what she thinks and is one of the truest and most candid characters I ever met or read about. She doesn't care if her opinion is hurtful or if it will cause her trouble. She can't shut up and sometimes that's the worst character trait imaginable. She has to earn the trust of the crew and before she can even think about that she has to clear herself off all the prejudices the crew has. She's not the perfect heroine, she makes mistakes and shows a few not so good character traits but this only made her more real in my eyes. The side characters are mostly hostile in the beginning. They all have lost something or suffered in the attempt to rescue Jax. This makes the getting to know each other really complicated. They don't want to give her a chance but they realize soon that not everything is like they thought it is. I really loved the Doc who's the only one to be without prejudice against Jax. March is difficult in the beginning and needs a few talks and fights with Jax till these two warm up. The bonding of the characters (not only between Jax and March) is well described and we learn to love them on the way. The bunch of people becomes a group while the story is told and you can feel how they start to respect each other. The story is complex, full of moral questions and has a few bloody and disturbing scenes too. The bad "guys" are disturbingly frightening and the solution of the conflicts isn't a walk in the park. Loved the plot, loved the genre, loved the characters, loved the romance- perfect book.

Kurzbeschreibung As the carrier of a rare gene, Sirantha Jax has the ability to jump ships through grimspace-a talent which makes her a highly prized navigator for the Corp. Then a crash landing kills everyone on board, leaving Jax in a jail cell with no memory of the crash. But her fun's not over. A group of rogue fighters frees her...for a price: her help in overthrowing the established order. Pressestimmen "Jax's brutal eloquence will twist your heart when you least expect it." -JERI SMITH-READY "Exciting, evocative and suspenseful science fiction romance...Characters and a world you'll think about long after the book is done." -ROBIN D. OWENS Kurzbeschreibung As the carrier of a rare gene, Sirantha Jax has the ability to jump ships through grimspace-a talent which makes her a highly prized navigator for the Corp. Then a crash landing kills everyone on board, leaving Jax in a jail cell with no memory of the crash. But her fun's not over.
