Von Anne Logston : Guardian's Key (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Guardian's Key (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Do you like fairy-tales?Von April KlineThe first thing I did when I finished this book was open it up to page one and start reading it all over again. Heh, I haven't done that with a book since I was about 15 (I'm 26 now), so I guess that says something. The book is not perfect: I pretty much knew how it would end by page 3. But it's a pretty darn enjoyable trip getting there, and didn't spoil the experience for me. Ms. Logston's Crystal Keep is an incredible setting for a

novel: a long hallway, with virtually unlimited doors leading into other worlds. And the premise of having to search these worlds to be granted your heart's desire is, at the same time, fresh and timeless. The characters are quite likeable, and the plot is entertaining enough, making for a very enjoyable read. My only other criticism is that the plot resolution is a little weird: too literal for my taste (you'll have to read the book to understand). But the setting and concept behind the story are enchanting enough to make up for the (few) weaknesses in the plot. Highly recommended for those looking to indulge in a little escapism.

Kurzbeschreibung Everyone knew the dark legend of the Crystal Keep...Of its endless hallways and infinite doors. Of the all-knowing Oracle hidden within its walls. And of the all-powerful Guardian who challenged those who dared to enter.No one knew for sure what was truth and what was rumor, except that few people went there. And even fewer returned.But Dara knew it was her only hope.So begins a strange and mysterious journey of discovery, a young woman's search for her own special magic and her own self. Behind every door awaits new worlds of possibility. And deep within every heart lies the greatest secret of all: that strength and courage have a magic all their own.Kurzbeschreibung Everyone knew the dark legend of the Crystal Keep...Of its endless hallways and infinite doors.
