KurzbeschreibungIn the tradition of Indiana Jones, a feisty heroine with a sixth sense, and two sexy heroes, a dark, reclusive billionaire and a mercenary bodyguard are on a hunt for four powerful relics that could change their lives and the course of history. But relics aren't Kendall's only quest. Eventually, she'll have to choose between her sexy boss and her badass bodyguard. Kendall Morgan is a human bloodhound. Spending her childhood hunting relics with her ambitious archeologist father, she knew the two of them shared a sixth sense for the history and location of objects - sometimes even people. What she didn't know was that their paranormal gift could ultimately be their undoing. After the tragic plane crash that killed her father as well as her childhood best friend, Kendall dedicated her life to finding and protecting relics. When mysterious, sexy billionaire Nathan Larraby hires her for his latest expedition - the search for four powerful relics - she's thrown into a world of high-octane danger. He sends brooding mercenary Jake Stone to watch Kendall's back, but he may have created danger of a different kind. As the team chases down clues, a man called the Reaper makes a play for the artifacts and will stop at nothing to put them to his own sinister use. What's worse is that Nathan hasn't told the whole story, and the dark secrets he's keeping could cost them the mission and their lives.
