Horns and a tail...delicious!!!!Von Anne B.I loved this book and Malvern so much, i think i will reread it again soon.With just the first few lines you just have to fall for this horned thief with a soft spot and a long tail. His funny and sarcastic mentiones along the story are awesome and make the reading flowing by so easy, you can't believe at the turn of the

last page that this journey is already over. As handsome and narcissistic as can be, Malvern can't get enough of himself but also of his new Harem of three unbelievable hot and sexy men he laid his eyes on and got the responsibility for with his "new role" as a king of a new world. Accidentally taking over this position to escape from prison, this sexy tail whipping hunk gets more and more comfortable with his new duties, especially with the ones that include three handsome men. The sex is unbelievable hot and sexy, and when you think you have seen and heard it all, no way with James Cox! His guys come up with some new Special "treats" you wouldn't dream of! And those tail....no words needed! But beside the hot sex, the closer he got to them the more they own a piece of his heart. So even the search for a plan to escape isn't that important anymore, although the real king is on his way. I loved to see how Malvern changes from chapter to chapter to the good side, so that on one special moment I just growled at my Kindle: "Don't you dare....!!". Will the best thief of the universe go on with his old life and leave his new found heart? Or will he risk it all to begin something new? Well, you have to read that to get your answer...James Cox did it again, and I hope he will do some more of this hot stuff in the future soon!! Can't wait for the next Handsome-story!!

KurzbeschreibungHorns, tail, and rainbow cum... What happens when a thief, posing as a king, gets his own harem? Malvern is a fake king trying to survive long enough for a ship to whisk him away to another planet. He never expects to get a ragtag harem of near rejects. One is a human that makes Malvern long for domination. Then there's the redhead with scars on his back, red eyes and oh yeah, his cum glows in the dark. The last man in this messed up harem is in chains because he's too violent. When a wicked storm hits, Malvern is forced to make a hard decision his own survival or save their lives. He also has limited time to make that choice because the real king is on his way to claim the throne. How the hell is this going to end well? KurzbeschreibungHorns, tail, and rainbow cum...
