KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. lip-biting-hot...Von Anne B.All good things come in threes! So it seems, and indeed it is with this series!It is a seamless connection to the second part and we get to know some new characters.So we have sweet and sexy Kendrew, a

communications officer that tries to follow the rules and his big and famous brother in his foot steps. But he doesn't care that much in the inside about it all. He just wants to live and to be loved. And on the other hand we have Laydens brother, King Leith, a dark, handsome and sexy as hell Alpha all the way!! So there is no surprise Kendrew falls for this hot wolf the first time he sets his eyes on him. After an emergency exit from their battle ship, Kendrew and Leith found themselves on a dangerous planet on their own. And what better chance can one get, to get to know each other by spending time together in a small emergency pod with some rough and lip-biting-hot sex.... But Kendrew wants more than just hot sex 24/7, he longs for someone who really cares for him and his feelings. Will their "relationship" last and have a chance after their rescue? Will Leith be more than just a hot f#%? Will Kendrew's past be a problem to get his luck and love with the handsome wolf? And again a hot and sexy read that leaves you like a happy puddle on the floor longing for far more of this hot series! Call me a Cox-addict now!

Kurzbeschreibung A lot of potent drinks, a horned man with a tail, and high heels... All caught on camera with a drunken Kendrew at the center. This fiasco leads to a career demotion and jokes behind his back. All that changes when he's sent in the middle of a space war that could become a fatal adventure. King Leith of the Golden Wolf Clan isn't impressed with the new peace negotiator, Kendrew. Even less so when the talks break down and missiles start flying. Kendrew finds himself in harm's way, horny and still regretting that one drunken night. Add in a crash landing and some nasty creatures bent on eating them... call it a party from hell! The question is, will they survive?
