Von Jostein Gaarder : Sophie's World: A Novel About the History of Philosophy (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sophie's World: A Novel About the History of Philosophy (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This is a

novel novel Von Bernie That is right this is a novel about the history of philosophy. It was written by Norwegian professor Jostein Gaarder. Gaarder Now writes other novels and has a large following. I personally found it fun to read and intriguing. Some readers may think the ending is a little strange however it fits the story perfectly. This novel is used as an introduction point to philosophy. So it would not be appropriate for those that already have a background in philosophy to dismiss this as sophomoric. Everyone has to start somewhere. If you are already a philosopher then it is still an interesting novel with an interesting twist. Receiving a mysterious letter in the mail, Sophie Amundson is about to embark on a mysterious journey that is mostly correspondents and may become much more. We get to join her on her discoveries.

LUIS MENDEZ luismendez@codetel.net.do 0 von 0 Kunden fanden die folgende Rezension hilfreich. Adolescent girl has clandestine meetings with "teacher" Von J. Vasilius My son, age 14, and I read this book together. He loved the philosophical material and did not seem discouraged by the rather onerous plot. I am glad to have Nick's mind opened to new paths of inquiry. I am concerned about an aspect of the plot. The adolescent Sophy repeatedly lies to her mother and runs off to have clandestine meetings with a middle-aged man, completely unknown to her, in a variety of isolated settings, following the lure that he will teach her new things. She finally runs away with him. Am I the only one who considers this a bizarre "model" to give to children? Even my 14 year old said, "Isn't that the sort of thing you told me never to do? He could molest her." The intro to philosophy is fine, but I found more to object to in the story than a cumbersome plot.

Kurzbeschreibung The international bestseller about life, the universe and everything. When 14-year-old Sophie encounters a mysterious mentor who introduces her to philosophy, mysteries deepen in her own life. Why does she keep getting postcards addressed to another girl? Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined.

A phenomenal worldwide bestseller, SOPHIE'S WORLD sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. A brilliantly original and fascinating story with many twists and turns, it raises profound questions about the meaning of life and the origin of the universe..de Wanting to understand the most fundamental questions of the universe isn't the province of ivory-tower intellectuals alone, as this book's enormous popularity has demonstrated. A young girl, Sophie, becomes embroiled in a discussion of philosophy with a faceless correspondent. At the same time, she must unravel a mystery involving another young girl, Hilde, by using everything she's learning. The truth is far more complicated than she could ever have imagined..com Wanting to understand the most fundamental questions of the universe isn't the province of ivory-tower intellectuals alone, as this book's enormous popularity has demonstrated.
