Von Genevieve Graham : Sound of the Heart before purchasing it in order to gage whether or not it would be worth my time, and all praised Sound of the Heart:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. 4.5 stars! Graham's writing style is rich and flows smoothly.Von Detra FitchDougal MacDonnell, from Invergarry, is a fierce Highland warrior of Scotland. During the Battle of Culloden in April, 1746, Dougal is separated from his

brothers and sees his father fall. Devastated by the loss of his family, Dougal becomes a prisoner of the English. During this time Dougal strikes up a friendship with John Wallace, another prisoner. Together they keep all of the other prisoners from preying upon the two drummer boys, Joseph and Aiden. (Skipping a lot here to avoid spoilers.) Dougal falls in love with Glenna and the pair spend many years together living in an abandoned croft. But the Sassenach still scour Scotland, searching for all Highlanders, and it is only a matter of time before Dougal and Glenna are discovered. Glenna is captured, shipped overseas, and forced into indentured servitude. Dougal joins an English army made of vanquished Scots and sails for the colonies in hope of locating his Glenna. (Skipping a lot here to avoid spoilers.) Glenna, believing Dougal to be dead, fights simply to survive. And Dougal will risk everything for the chance to find his true love. ***** FOUR AND A HALF STARS! This book is broken into two parts. Part One is a little over two hundred pages and follows Dougal. Most of my synopsis covers it. Part Two follows Glenna, from the moment she is captured in Scotland, and is around ninety pages in length. Those who read the reviews on my site know that I always warn of any cruelty to animals and children. Rest assured there is no need to fear either type of cruelty within the pages of this novel. I also warn readers of any forced intercourse. Readers will find one or two unwilling scenes; however, the author glosses over these parts. Nothing is too graphic and readers with very soft hearts should have no trouble. In fact, I am very impressed with how Genevieve Graham handled it all. Graham has a rich writing style that flows smoothly and backgrounds of the characters are well developed. The only thing that I do not recall ever learning is Glenna's last name, but for this tale I do not feel it to be important. As for the battles, especially at the beginning, Genevieve Graham brought the fields of war to such vivid life that they seemed chillingly real at times. I could almost feel the ground quake from the cannons, see the fear or anger in surrounding faces, and smell the stink of death. I am proud to highly recommend this story to everyone I meet. Absolutely surreal! ***** Reviewed by Detra Fitch of Huntress Reviews.

Kurzbeschreibung From Genevieve Graham, author of *Under the Same Sky*, comes a sweeping romantic historical novel of one man's strange gift and dangerous battles...
