KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Loved it!Von KatschilouI love all her books and this one is no exception. Great, strong, likeable heroine that has to battle her

own demons and an exciting and yummy hero that lets us explore the space program along with his heart. After some initial head clashing they come to respect and actually care for each other so deeply. Another wonderful story by Mrs. St. Claire where I wished the ending would not have come so soon. Definitely a keeper!

KurzbeschreibungA thrilling romantic adventure from New York Times bestselling author Roxanne St. Claire!When PR superstar Jessica Marlowe is tasked with making America fall in love with space exploration, she knows exactly what to do: find some smokin' hot astronaut eye-candy and make him NASA's poster boy. When she meets Navy fighter pilot turned astronaut Commander Deke Stockard, the shiver down her spine tells her she's found her man. Consumed with the safety of the upcoming shuttle launch, Deke has zero interest in being part of a lame media blitz--but orders can't be ignored. He also can't ignore the way Jessica's sexy smile and single-minded determination throw his well-ordered life into a tailspin....and ignite an undeniable attraction.
