**Von Sebastian Fitzek : Splinter: A gripping, chilling psychological thriller (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Splinter: A gripping, chilling psychological thriller (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Gute Idee - but translation to EN (?)Von Harald JentschZweisprachige Rezension / Bilingual ReviewSebastian Fitzek gefällt mir ausgesprochen gut und auch dieses Buch hat eine tolle Idee bzgl der Klinik fr negative Erinnerungen.Dafr und fr

seine allgemein gute Art zu beschreiben möchte ich fünf Sterne vergeben. Allerdings, und mich würde interessieren, wie andere Leser der englischen Version denken, hätte ich etwas mit der Übersetzung. Zwar bin ich kein 'native' English speaker, habe aber schon einige englische Bücher verschiedener Autoren gelesen. Bei der Splinter Übersetzung stört mich die relative hohe Anzahl ungewöhnlicher Vokabeln und Redewendungen. Ich glaube, das Buch in Originalsprache Deutsch zu lesen hätte mich mehr gefesselt. Review of English translation: Maybe a native English speaker would like to give his opinion about my comment. I like the story of this book very much but felt slightly uncomfortable with the English translation - there were too many "strange and unusual" phrases and words used in this book. Of course this is very subjective statement, but I am curious if somebody else could confirm. 2 von 2 Kunden fanden die folgende Rezension hilfreich. Super schlecht ins Englische übersetzt Von Nicole Machmeier Ich lese sehr viel im Englischen und das Buch ist super schlecht übersetzt. Ich würde es nicht mehr kaufen. Ps. darum ist es auch vielleicht so billig? 1 von 1 Kunden fanden die folgende Rezension hilfreich. Amazing reading experience Von Pilgrim I read a few books from Fitzek before and I was again not disappointed. It was thrilling and breath-taking from the first to the last page. The story is really fascinating and complex. So many times I just thought: "now I get it" only to read on and find the plot turning again. I can only recommend this book to anyone who enjoys reading thrillers!

Kurzbeschreibung Have you ever done something you wish you could forget? Wracked with grief after an accident killed his wife and unborn child, all Marc Lucas wants is to wipe his memory. Until he returns home one night to find that his key doesn't fit in the lock and his wife is alive, well and pregnant - but claims not to recognise him. Marc is drawn into a nightmare world, one where it's impossible to separate reality from fiction. Is he going mad? Or is there a conspiracy at work - one that could cost him his memory, his sanity...even his life. Pressestimmen Explosive, pacy and irresistible... keeps its readers on edge from the first page to the last Der Tagesspiegel Psycho. Breathtaking. Hugely suspenseful. A waking nightmare to the very last page BZ Utterly convincing... goosebumps guaranteed! Bochumer Zeitung Sebastian Fitzek is a master of terror Brigitte Kurzbeschreibung Have you ever done something you wish you could forget?
