Von Elysa Hendricks : STAR RAIDERS (Star Chronicles Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised STAR RAIDERS (Star Chronicles Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
SchwachVon javelinxShyanne Kedar ist als Tochter eines interstellaren Schmugglers und Piraten aufgewachsen. Vor 10 Jahren erschlich sich der Agent Greyson Dane ihr Vertrauen und ihre Zuneigung, um ihren Vater dingfest zu

machen. Nun drngt er sich erneut in ihr Leben und macht ihr Versprechungen, die zu schn sind, um wahr zu sein. Obwohl sie es besser wissen mte, lt Shyanne Greyson wieder auf ihr Raumschiff und in ihr Herz...Obwohl diese Grundkonstellation nicht gerade neu ist, htte man einiges aus ihr machen knnen. Leider bleibt alles flach und eindimensional - die Hauptcharaktere sind schablonenhaft und wenig einfhrlbar, handeln vorhersehbar und werden klischeehaft dargestellt; Shyanne ist ein weiblicher Robin Hood, gutherzig und verletztlich, trotz ihrer gewitzten Raubzge und ihrer schlechten Erfahrungen verflht sie sofort wieder dem gesetzestreu und berkorrekten Greyson, der wie ein Finanzbeamter denkt und trotzdem ach so abenteurlustig und attraktiv ist. Der romantische Anteil beinhaltet frhzeitig eindeutige Liebesszenen auch unter unpassenden Bedingungen, die Attraktion beschrnkt sich ber weite Strecken auf endlose Vergleiche Greysons mit Schokolade: seine Augenfarbe, seine Haare, sein Duft... , das wird schnell alt.Die schicksalshaften Verwicklungen wrden genauso gut zu einem Regency passen - wer ist wessen Sohn/Tochter, wer hat wen umgebracht oder doch berlebt, wer wei nichts von wessen Kindern/Geschwistern/Verwandschaft.Der SciFi-Anteil bleibt bla und austauschbar wie eine Fototapete, endgltig unglaubwrdig wird der Plot, als zum Schlu eine neue geheime Erfindung fr eine Aufklrung der Situation sorgt und das Happy-End ermoglicht.Selten mute ich mich so durch ein Buch qulen, es hatte nicht einmal Urlaubslektre-Qualitten.Wer spannende Futuristic Romance lesen mchte, die sowohl vom SciFi-Hintergrund als auch von den Hauptakteuren her gefllt, sollte lieber Linnea Sinclair ausprobieren; wer telepathische Katzenwesen oder ausgefallene Aliens mag, sollte es mit Lianne Norman oder S.L. Viehl ausprobieren, da hat man bestimmt mehr davon.0 von 0 Kunden fanden die folgende Rezension hilfreich. Hmm, cover has long hair. Story has short hair.Von Detra FitchGreyson Dane is an interstellar lawman. Ten years ago he had gone undercover to capture Stewart Kedar, a smuggler accused of much worse. To accomplish this, Greyson had gotten close to Kedar's innocent daughter, Shyanne. He meant to use seduction, but never meant to fall in love. Still, Greyson betrayed Shy and imprisoned her father.Simon Dempster had been Stewart Kedar's right-hand man. For over twenty years he has been obsessed with possessing Shy. Dempster has recently set Shy up as the one responsible for attacks on C.O.I.L. (Consortium of Intelligent Life) ships. Greyson is one of only a few who believe Shy innocent of the charges. Unless Greyson can prove Dempster's guilt and capture him within one month, C.O.I.L. will exterminate all sentient life on Earth and all outer worlds. To succeed, Greyson needs Shy's help. Shyanne may have been young and innocent ten years ago, but now she is a smuggler - at the very least. Shy has contacts throughout the outer worlds, access to places and information no agent could ever hope to have. Greyson must, once again, manage to gain Shyanne's trust and then betray her.Shyanne learned her lesson the first time. There is no way she will allow herself to trust Greyson, much less let him ever learn that he had left her pregnant so long ago. But should C.O.I.L. make good on their threat to wipe out humanity, the planet her son resides on would be among them.**** FOUR STARS! This romp through space has several twists, turns, and surprises. Whenever I came to believe that I understood everything, the author either tossed a bit of debris or a huge meteor in my path, causing things to spin out of control. Shyanne's crewmates are fascinating. I especially hope to see more of Silky, a hundred pound cat. The intelligent and telepathic feline has an ever-present entourage of feline guards she seems to be leader of. Silky is much more than she seems. THAT character deserves to be in more than a single story! So do a few of the other crewmates.Though women are the target audience, I believe many men would enjoy it too. Packed with action, suspense, and romance, this story is out of this world. (No pun intended.) ****Reviewed by Detra Fitch of Huntress Reviews.

KurzbeschreibungA FIERY ENCOUNTERLike two ill-aligned stars, Shyanne Kedar and Greyson Dane were destined to collide. She was a smugglers daughter, and he, an interstellar lawman. Their affair was scorching, dazzlingand ended like a supernova, in a blaze of betrayal. A LOVE REKINDLEDTen years later, the flames havent cooled. Shyanne's lush body, the twist of her lips and the fire in her eyesall radiate the same magnetism that ensnared Greyson before, and now hes truly her prisoner. But as much as things have changed, they remain exactly the same. Danger threatens. Humanity's fate hangs in the balance. And though his tempting captor doesnt know it, if Greyson's plan succeeds, it will save mankindand lose him the only woman he ever loved. This time, forever. s:"FOUR STARS! This romp through space has several twists, turns, and surprises. Packed with action, suspense, and romance, this story is out of this world. (No pun intended."Detra Fitch of Huntress s. "STAR RAIDERS is a great romantic outer space thriller starring two former lovers still in love, but his treachery keeps them apart as she refuses to trust him with her heart or freedom. He regrets that he will use her again, but believes strongly his mission is critical because if he fails mankind could become extinct. Sub-genre readers will enjoy the Hendricks' galaxy as two people still in love conceal secrets

from one another."5-Stars -Harriet Klausner "Fantastic?Spacetacular! Yup, that's how much I enjoyed this book I am resorting to making my own word.Elysa Hendricks has succeed in carving out a world for her motley crew of characters. The sizzling romance and passion is equally matched by the action, danger and adventure.. The strength woven into the characters is admirable and easy to fall into step with. Their mission became my mission and I wanted nothing more then to see them succeed. Greyson enlists the help of his once lover Shy. Shy has the means, smarts, and connections to bring down an intergalactic criminal who has been racking up quite a list of horrors and leaving Shy's calling card.The storyline itself is riveting and face paced. Greyson and Shy share a history. They both have painful childhoods and both have enormous amounts of reserve. The secondary characters add another sweet layer to this novel. Shy's motley crew on her spaceship, Independence, all have appealing back stories. Elysa has shares just enough to help readers sympathize and comprehend actions without drowning us in their history. What the main characters don't know is that their history goes much deeper then they realize and their futures are infinitely intertwined."5-Stars -LovLivLife sKurzbeschreibungA FIERY ENCOUNTERLike two ill-aligned stars, Shyanne Kedar and Greyson Dane were destined to collide.
