A lot of Ethical QuestionsVon KundenrezensionenOld criminals, new kinds of crimes, guilt and the prime directive are as much a topic of this book as the question, why somebody takes the job of a security officer.None of the six stories in this collection of former e-books is uninteresting and together these stories - in which we meet among others also Quark, Kira Nerys and Julian Bashir - form a continuing account of the new adventures of the U.S.S. DA Vinci that certainly is worth its price. Highly recommended.

KurzbeschreibungThe Dominion War has been over for a year, but its legacy lives on. Commander Sonya Gomez, former Starship Enterprise engineer, and her crack Starfleet Corps of Engineers team on the U.S.S. da Vinci find themselves dealing with many permutations of that legacy. Two mysterious murders on the da Vinci lead to the Gamma Quadrant and a Dominion base. A pre-warp planet occupied by the Dominion still has scars from both sides of that conflict. Plus Gomez, computer expert Soloman, and Security Chief Corsi are haunted by demons from their past. But the greatest threat of all comes from a visit to Deep Space 9. A fissure has opened up between realities, endangering the very existence of the Bajoran system -- and also stranding Doctors Lense and Bashir on a war-torn planet from which they may never escape.KurzbeschreibungThe Dominion War has been over for a year, but its legacy lives on.
