building Von Kundenrezensionen This book seems to be a link between the events in the mirror-universe and the wormhole-entities - or more correctly the prequel to a link. Some of the events of the former novel are cleared up here more or less satisfactorily and some things hint at bigger revelations in the future. Nice solid novel without any special things to recommend it except the suspicion that it might be a good idea to know what happened here before reading the next one. ("The Never-Ending Sacrifice") 0 von 0 Kunden fanden die folgende Rezension hilfreich. A good bridge ... way too long, but good Von Horst Gutmann The first book of this mini-series had a big problem from my point of view: It was nearly purely focused on a single character that wasn't all that appealing to me in the first place, back when she was first introduced into the DS9 universe: Iliana Ghemor. And what was not entirely focused on her, played within the mirror universe, so it might have probably been a better fit outside of the DS9 book series and perhaps as a spin-off of the "Star Trek: Mirror Universe" series. After I read this second book I eventually understood why the first book was written in that way. Iliana's background actually is relevant for the outcome of this mini series. While the first book was all about the history of Iliana with Dukat and others, this one finally reveals her true goals and her whole plan. There are far less jumps back in time which makes "The Soul Key" feel more relevant to what DS9 is now. Most of the book still plays within the mirror universe, but with more "guest characters" from the original universe. In the end, the book feels completely like a bridge between the storyline that started when Taran'atar moved in on DS9 and what's about to come with the Ascendants. I'm still not sure if this whole transition really had to be 3 books long and was necessary. It's not a bad story, but on some occasions it feels a bit too much. If you look at it as a pure Mirror Universe story, it's really nice, but for a main-line DS9 book, it progresses the story there a bit to little. But it opens the door for books about the next 4 years until we finally reach the Destiny series (2371) :-)

So werden einige Zusammenhnge verdeutlicht. Ein Handlungsstrang wird zu Ende gebracht, aber am Ende auch neue angedeutet. Der Inhalt ist spannend und kurzweilig. Der Aufbau mit Rckblenden und das Paralleluniversum erfordert aber einige Konzentration. Fazit: Wer die vorangegangenen DS9-Romane gelesen hat, sollte die Fortsetzung unbedingt lesen.

Kurzbeschreibung Continuing the events from Star Trek: Fearful Symmetry, a new novel in the ongoing Deep Space Nine series set after the end of the critically acclaimed television series. Captain Kiras lookalike, Iliana Ghemor, dreams of fulfilling a prophecy that will mark her as the one true Emissary of the mirror universe's messianic figure who will lead her followers into a war that could trigger the cleansing of countless alternate Kiras in countless parallel realities. But the stakes are higher than anyone imagines, for the pull of destiny tugs at other souls who are swept into the vortex of the Prophets, remote and timeless beings who have set these events in motion. Yet the outcome of this struggle for the fate of one universe will ripple across many others, giving shape to a future that will prove to be the greatest trial yet for the heroes of station Deep Space 9.

Synopsis In our universe, a Cardassian sleeper agent called Iliana Ghemor was once surgically altered to resemble and replace Bajoran resistance fighter Kira Nerys. That plan never reached fruition, and the fate of the agent remained unknown -- until now. Robbed of the past sixteen years and on the brink of madness, Iliana Ghemor is back with a vengeance. She has already made one attempt on the real Kira's life, and now the Deep Space 9 crew must somehow stop the false Kira without derailing the delicate flow of history that must unfold if two universes, and countless others, are to survive.
