Von Patricia Potter : Starfinder (The Scottish Star Series) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Starfinder (The Scottish Star Series) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Definitely not Potter's best but still interestingVon Ein KundeIn the year 1746, scottish lord Ian Sutherland is badly wounded, captured by the Britisch, shipped to the Maryland colony and sold as indentured servant. His new master dies 2 days later and leaves Ian alone with his young widow and 2 small children who are threatened by a cruel and

covetous relative. Ian has to choose between staying and saving a family he has come to care for very much or escape and get back to Scotland to look for his little sister (by the way the sister is supposed to be 7 years old but his parents died 10 years ago...). Action spiced with sweet children and unusual pets. The heroine is great, level-headed, capable and loving. Ian takes quite long to come to his senses.0 von 0 Kunden fanden die folgende Rezension hilfreich. Great read until . . . Von Ein KundeStarfinder was a great read and kept me content until the last five chapters. Things slowed way down then and finishing was a push. The ending was too long and the story needed to end about 30 pages sooner. Also, Fancy's reaction to the crisis was a bit too tepid to believe, and the villain was just too bad to believe. Not enough layering, no real dimension--flat. Had he been better developed, the ending might have had better pacing. Otherwise, I've heard great things about Patricia Potter and I fully intend to read the rest of her books. She's clearly a gifted writer and we need all those we can get!0 von 0 Kunden fanden die folgende Rezension hilfreich. Dullsville..... Von Hannah M. HureyO.k. Was I the only one who didn't think this book was great. The book dragged! The first 100 pages were just a struggle to get through. Then the last 200 were a struggle. A book needs to hold the attention of the reader and let me tell you that this did not. Every little distraction that came my way was a welcome reprieve. I had heard such good things about this book from reading the below reviews and was really looking forward to a good book. But if you are looking for a good book, PASS THIS ONE UP. It was just plain dull and the middle cannot make up for the boring beginning and end.

KurzbeschreibungThis passionate historical romance featuring the second generation of the Sutherland family sweeps from the Scottish Highlands to colonial Maryland, where a struggling young woman makes a desperate bargain with a freedom fighter Minutes before being hanged for treason against the British crown, Ian Sutherland is suddenly spared... only to end up in chains again, this time in the hold of a ship bound for the colonies. In America, he becomes the indentured servant of a prosperous Maryland farm owner. But the noble freedom fighter vows to one day escape his servitude and sail back across the sea to his clan. Then he meets Fancy Marsh. John Marsh rescued Fancy and her half sister Fortune from a terrible fate. Now Fancy shares a good life with her husband, their two children, and an ever-increasing menagerie of pets. But when John dies, Fancy is left at the mercy of his cruel, covetous brother. In desperation, she turns to her rugged, enigmatic bond servant to help her protect her name and legacy. Although Ian agrees to her risky plan, Fancy knows that his heart longs for Scotland. But their dangerous charade soon flames into irresistible passion and the one thing they never expected: a love that can prevail over their most treacherous enemies and the winds of fortune.Starfinder is the 2nd book in the Scottish Star Series, but you may enjoy reading the series in any order.
