Unterhaltsame Fortsetzung der Abenteuer in der Pegasus-GalaxieVon SamemaxDas dritte Teil der Legacy-Saga fngt fr die Atlantis-Crew aufgrund der frheren Geschehenisse ziemlich schwierig an: Teyla hat Probleme mit den Athosianern, die sie nicht mehr als eine von ihnen betrachten. Ohne Rodney fllt die ganze Arbeit in die Hnde von Radek, als Verstrkung wird McKay's Schwester Jeannie auf Atlantis geholt. Die Wraith gewinnen dank unerwarteter Hilfe an Strke und werden zu einem extrem gefhrlichen Gegner nicht nur fr Atlantis, sondern auch fr die Milchstrae. Nun sind sie nicht nur viele, sondern auch mit neuen technologischen Erfindungen ausgestattet. Auch auf Sateda hat sich so einiges gendert und die Genii mchten selbstverstndlich mitmischen. Von den Mitgliedern der Atlantis-Expedition werden jetzt Anpassungsfhigkeit und schnelle Reaktionen gefragt. Ganz toll finde ich, dass man immer mehr von den Wraith, ihrer Gesellschaft, ihrer Sichtweise und ihrer Geschichte erfhrt. Neben der Atlantis-Besatzung sind auch Sam mit der Hammond und Caldwell mit der Deadalus vor Ort. Am Ende des Buches steht Atlantis nicht viel besser als am Anfag dar aber es gibt eine neue Hoffnung. Insgesamt eine unterhaltsame Fortsetzung der Abenteuer in der Pegasus-Galaxie.1 von 2 Kunden fanden die folgende Rezension hilfreich. Ob TV oder Buch - Stargate ist immer gut.Von MicadoAuch diese Geschichte hlt einen in seinen Bann und man mchte gleich weiterlesen um zu erfahren, ob das Happyend auch wirklich stattfindet. Wer die Serie kennt und um die Figuren wei, der bekommt diese einmal etwas anders vors geistige Auge. Auch den Besten kann ein ungewohntes Schicksal ereilen; um so amsanter die Zweifel an der eigenen Person.0 von 2 Kunden fanden die folgende Rezension hilfreich. o my godVon kniginRodney attacking Atlantis, his sister Jeanne and Carter on her way to stop him, Zelenka struggling with being Head of Sciences, Ronon finding out that there are still/again people living on Sateda ... ALLEGIANCEBook three of the Legacy seriesOh, not good, Zelenka said, and followed it in Czech with what sounded like something heartfelt. We have systems shutting down internal sensors, power to the weapons chair Get that thing shut down, Lorne said.Yes, I am trying What the hell is going on? Sheppard said, tearing up the stairs into the control room, wearing sweatpants tucked into the tops of his boots and a flannel shirt he hadnt bothered to tuck in at all. This is Rodneys work, Zelenka said. His programs are shutting down our security systems, and I cannot stop it. I am afraid we are going to lose the iris.Security teams to the gateroom, Sheppard said into his radio. Sound a citywide alarm. Salawis hands moved uncertainly over her keyboard, but it was only seconds before the alarm sounded. Put me on citywide, Sheppard said, and waited for Salawis quick nod before he went on. This is Colonel Sheppard. Assume that as of now we are facing an attack by unknown hostiles who are trying to get through the Stargate. I want security teams on full alert Zelenka breathed a curse in Czech, all the more alarming because his tone was hushed rather than heated.
