KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. can't believe it ends on a cliffhanger...Von B. Benjamin...but it is great that they are writing more books in the series :-) And that Weir is finally back.It's not up to the literary standards of Chaucer or Shakespeare but much better than most tie-in/continuation novels for sci-fi tv-series. And the authors are actually improving a lot from book to book, and face it Stargate isn't exactly the most demanding sci-fi there is to begin with.As to the story - it is actually much better than what I believe they would have done with the tv series. Of course they have to stick to certain things, but they also manage to shake up the Pegasus Galaxy quite a lot.0 von 0 Kunden fanden die folgende Rezension hilfreich. in ordnungVon Joich finde es ganz in ordnung fr eine stargate atlantis legacy series fortsetzung aber in sich allein bischen zu actionlos.
