Von Vasily Mahanenko : Start The Game (Galactogon: Book #1) LitRPG series (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Start The Game (Galactogon: Book #1) LitRPG series (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. need more!Von baselinecome on, Vasily, we need more of this series.. this is space based and more science fictional than

other litrpg, except phantom server (also excellent, but more hardcore world) and perimeter defense (which is more of a strategy based setup). Start the game is space opera litrpg, with an excellent plotline, gripping action and, of course, real life complications for the protagonist... please, can't leave us hanging on to the cliff like this, translate more! we'll buy them for sure.1 von 1 Kunden fanden die folgende Rezension hilfreich. Sehr cooles literrpg BuchVon superwaugiSpannend geschrieben, nette Twists, Sci Fi mal anders. Fr RPG Spieler und solche, die lieber darber lesen, als selbst spielen bestens geeignet. Hoffentlich gehts bald weiter!2 von 2 Kunden fanden die folgende Rezension hilfreich. my sentiments exactlyVon still readingReally good litrpg. I am like the other reviewer not so much into space ships, but since i liked the other books by the author i gave it a try.Now i hope for the sequels..

KurzbeschreibungTwelve players set off through the online world of Galaktogon, lured by the game owners' promise of an enormous payoff. The question is, who will survive to tell the tale? Which of the twelve is a potential hero - or a traitor in the making? Which of them will defend the weak and who will become the ultimate evil overlord?A knight or a coward? Each of the twelve will have to choose his or her path. Each will keep a poker face. But if the billion-pound prize calls your name, you can't conceal your choice. And you will do everything to lay your hands on it.KurzbeschreibungTwelve players set off through the online world of Galaktogon, lured by the game owners' promise of an enormous payoff.
