Se Geschichte mit einigen traurigen MomentenVon Irini K!This is the debut of Lizzy Roberts and I have to say that I really enjoyed it.Emma Charlie were a couple in high school, after graduation she stayed in Glen Springs to work for a

law office. Charlie didnt finish high school, he worked for his uncle as a mechanic, to support his ill mother. Charlie knew that he cannot offer Emma the life she deserves and when she applied for Harvard Law School (and got in) he decided to let her go, so she can live the life she deserved and not be hold back because of him. After 8 years Emma is still not over Charlie, but life has other plans for Emma. After a life changing accident, she is not sure if she ever will have the time for a man in her life. The story building was a little slow at the beginning and at the end a little kitschy (a few to many I love yous) but overall I loved it. The Epilog was (not so) unexpected, cant wait for the next book in the series.
