Von Susie Tate : Sticks and Stones (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sticks and Stones (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. endearing. hilarious. a new favorite!Von M.J.!!! review contains spoilers !!!i haven't read "broken heart syndrome" before i've read "sticks and stones", so this book was my introduction into the hilarious, funny and amazing bunch of

friends surrounding Lou and Frankie. I loved those two and I loved all the incredible hilarious dialogues and descriptions. I loved Lous dedication, her bubbly self and her incredible strong will. She's one of my favorite female characters of all time. Because I have never read a Susie Tate novel before, I was sometimes overwhelmed by the sheer number of names and character traits. I loved all the Welsh references! What (or better WHOM) I did not like was Dylan. I hated Dylan. Dylan was a selfish, mean and arrogant prick. I hated how he treated Lou, how he talked her down in the mess and ruined everything for her. He noticed that she was losing weight and was looking tired and he thought it was because she worked a lot to compensate his laziness but alas, he didn't care. If she wanted to work her ass off for him, that was fine. Even in the end, I didn't really like Dylan. I was happy he and Lou got their happy end, because I wanted that for Lou, not him. It would have served him right, if Lou would have found a man she could love more than him and he would have died because he caught a deadly sexually transmitted disease or something. I was glad Lou went to Africa and had some time away from him and that she ignored him and that he missed her. I didn't like that Dylan had sex with uncountable women but Lou only with him and her teenage boyfriend, it made me angry that she wasted her whole life because she was waiting for him. And I hated Lous mother... grrr. Even though I hated Dylan and not even liked him in the end, I gotta admit, that he did change and became a better person for Lou and that made me happy for her. All in all, this book was an incredible funny read with a bunch of crazy, adorable and weird friends and a lot of incredible hilarious conversations. I recommend this book to any- and everyone and I'm definitely going to read all other Susie Tate novels as well! ***I like sleeping with you; you make these weird noises in the back of your throat, kind of like a cat when it's trying to cough up a fur ball. It's cute.*** 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Story! Von Nancy I was laughing, crying and just couldn't stop reading until I finished the Book. The sheer number of characters seems a bit overwhelming during the first few pages, but you come to love them so quickly that you almost believe you know them for a long time already.

Kurzbeschreibung For Lou it was always Dylan. She loved him from the moment they first met across a cadaver in the dissection room at medical school. The most gorgeous man she'd ever laid eyes on, with more Welsh charm than you could shake a stick at; she was a goner. But Lou, despite her beauty, was just too extrovert to interest Dylan, who was convinced that a quiet, shy girl, like Lous best friend Frankie, was much more his style. Have at it mate but I've got two words for you: high maintenance. Don't think I'd mind putting in the hard yards maintaining that piece of arse, one of Dylans more disgusting rugby mates replied. Well good luck to you, Dylan returned, looking completely relaxed now that they were discussing Lou and not his precious Frankie. I like mine heavy on the sweet and light on the ball-breaking bitch, but each to his own. After overhearing that exchange, Lou buries her pain and pines for him in private, but she can't give up their friendship. One night, eleven years later, she finally gets what she has been longing for, but the next morning realizes he was too drunk to even remember. For Dylan it was always anyone but Lou. A born surgeon, Dylan resents having to down his orthopaedic power tools for a six-month spell in Elderly Care. He thought that at least working with Lou would make his skiving easier; after all she's always helped him out before. And so what if he's been having these weird dreams about her since he woke up in her flat? It's not like he'd ever actually go there. So when he mistakenly believes that she's put his career in jeopardy he loses control and his vicious insults, publicly made, cut Lou to the bone. It's only after he loses Lous warm smiles, dry wit, boundless energy and outrageous banter from his life that he realizes the extent of his stupidity. Maybe sticks and stones can break bones, and that's something Dylans surgical skills can deal with. But when it's a heart he's broken This book is a full-length, stand-alone contemporary romance of approximately 80,000 words with its own HEA and no cliffhanger. Praise for Sticks and Stones "Another amazing read by Susie Tate. The characters are very well developed and the story is very well written. This is another book I had to force myself to put down. I can't wait for more books by Susie Tate." Life, Books and More Book Blog. "Moving, sometimes funny, sometimes dark contemporary romance. The books took me on a trip like I've not seen." Author Nathan Lowell for Peer ed "This time it's Lou and Dylan's story and it's a cracker." "I really did laugh out loud." "You get caught up the story from the beginning and I didn't want the book to end. Really enjoyed this book and would recommend." Words Turn Me On Book Blog. "A must read series that begs to be on everyone's e-readers and shelves. Love, understanding, patience and passion - Perfection." The Book Fairy s. "This series has suspense, great banter, friendship, love and drama: what more could a reader want?" Scandalous Book Blog. About The Author Susie Tate is a general practitioner and when she's not working she's looking after her four yummy boys under six (okay well one is actually over thirty-six but it's the mental age that counts!). Maybe it's a bit strange for a doctor to be writing contemporary romance/romantic comedy, but she thought she could use her experience to write what she hopes are funny, occasionally bittersweet stories that give people a behind the scenes look at hospital medicine. She can only apologize to her orthopaedic friends for the way she has brutally stereotyped them in this book but she just couldn't resist! Kurzbeschreibung For Lou it was always Dylan.
