Von Alison Tyler : Sticky Fingers (Cheek) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sticky Fingers (Cheek):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Hot reading Von Ein Kunde Warning - this is an erotic novel, not by Emma Holly but alison Tyler. Main character Jodie

silver is a thief. Posing as agent for an export/import company she gains entry to the homes of the rich and famous of San Francisco. She isn't stealing for her living but for the thrill. Upping the game, she secretly employs a private detective to prevent her biggest coup. The plot is rather far fetched and does not develop quite convincingly. Fans of the genre will be more interested in the sexy and/or romantic tangles anyway. These take place in well crafted scenes and among four comprehensible characters. Recommended as an easy, enjoyable and sexy reading. 0 von 1 Kunden fanden die folgende Rezension hilfreich. No one under 17 years of age should read this one. Kurzbeschreibung Jodie Silver has money and prestige - she's a buyer for an import and export business handling luxury goods in the heart of San Francisco. But underneath this polished exterior, Jodie has a darker, wilder side. She's an addictive thrill-seeker who gets a powerful rush for pocketing things that don't belong to her - jewellery, artefacts and works of art. It's a potent feeling, almost as gratifying as the excitement she receives from an engaging in wild exhibitionist sex - but not quite. Skilled at concealing her double life, Jodie thinks she's unstoppable, but with hunky detective Nick Hudson on her tail, it's only a matter of time before the pussycat burglar meets her comeuppance.
