She moves back to the house where the murder-suicide occurred to try to

uncover her past. While trying to complete the special, a series of odd events endanger Pat's life. The only way she can survive is if she can remember exactly what happened the night her parents died. Who murdered whom? Was it her distant father? Or was it her talented mother? This book is best suited for women ages 12-60. I enjoyed this book greatly because it was a suspenseful murder-mystery. I would give this book a five star rating. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Good suspense Von Benjamin Thomas I enjoyed reading this novel, mainly for the way in which the author intertwined the different subplots. There is quite a mystery involved, as well, as we try to uncover the background of the protagonist and how it ties in with the rest of the main plot. I found myself caring for what happened to the characters, a definite plus when evaluating a novel. The only thing I have to complain about was that the bad guy was more or less identified quite far from the end, making the ending somewhat anti-climatic. Worth the read nevertheless. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Stillwatch is proof of Clark's amazing knack for suspense! Von Ein Kunde I was vacationing in Florida when i read Stillwatch, and i would often resist the urge to go swimming, only because i was completely captivated by this terrific novel. I was caught up in Clark's world of intrigue, romance, and especially SUSPENSE!!! By the time i reached the last few pages, my hands were shaking!! Stillwatch is packed with spine chilling thrills as well as an interesting description of the Georgetown setting. Definitely one of Clark's best.
