**Von Lexi Ander : Striker (The Valespian Pact Book 2) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Striker (The Valespian Pact Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. Huh, not bad ...Von Querleser... but after the first book of The Valespian Pact I expected more. There are lots of logical issues and annoying Scenes which are overly dramatic. So maybe it's best to ignore this one and read the Alpha Trine as a

stand alone and not as the beginning of a serie.

KurzbeschreibungThe peaceful respite for which Zeus and his intended, Dargon and Alpha, had been hoping for is shattered when Zeus is unexpectedly drawn to the Waters of Poseidon and told that the safety they've been promised is a trap. But the Fal'Amoric aren't the only important cargo on the Oethra 7, and countless others are depending on the success of their mission. If Zeus hopes to break the silent siege on Valespia and protect those most precious to him, he will need not just powerful allies but the fortitude to survive overwhelming odds.
